

Environment Protection Licence

Licence - 21095

Licence Details	
Number:	21095
Anniversary Date:	01-June

Licensee
LENLEASE ENGINEERING PTY LIMITED
LVL 14 TOWER 3, INTNL TOWERS, 300 BARANGAROO AVE
BARANGAROO NSW 2000

Premises
2006-2012 THE NORTHERN ROAD
ORCHARD HILLS NSW 2748

Scheduled Activity
Resource recovery
Waste storage

Fee Based Activity	Scale
Recovery of general waste	Any general waste recovered
Waste storage - other types of waste	Any other types of waste stored

Region
Metropolitan Infrastructure
Level 13, 10 Valentine Ave
PARRAMATTA NSW 2150
Phone: (02) 9995 5000
Fax: (02) 9995 6900
PO Box 668
PARRAMATTA NSW 2124

Environment Protection Licence

Licence - 21095

Information about this licence

Dictionary

A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee

Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 ("the Act") and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions

The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence

This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review

The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and annual return to be sent to the EPA

For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).

Environment Protection Licence

Licence - 21095

The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

Transfer of licence

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

Public register and access to monitoring data

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

This licence is issued to:

LENLEASE ENGINEERING PTY LIMITED
LVL 14 TOWER 3, INTNL TOWERS, 300 BARANGAROO AVE
BARANGAROO NSW 2000

subject to the conditions which follow.

Environment Protection Licence

Licence - 21095

1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their scheduled activity classification, fee-based activity classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

Scheduled Activity	Fee Based Activity	Scale
Resource recovery	Recovery of general waste	Any general waste recovered
Waste storage	Waste storage - other types of waste	Any other types of waste stored

A2 Premises or plant to which this licence applies

A2.1 The licence applies to the following premises:

Premises Details
2006-2012 THE NORTHERN ROAD
ORCHARD HILLS
NSW 2748
LOT 103 DP1224905

A2.2 The premises also includes Lot 11 DP 1224905 known as 317 Homestead Road, Orchard Hills.

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:

- the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and
- the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

Environment Protection Licence

Licence - 21095

2 Limit Conditions

L1 Pollution of waters

- L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Waste

- L2.1 The licensee must not cause, permit or allow any waste to be received at the premises, except the wastes expressly referred to in the column titled "Waste" and meeting the definition, if any, in the column titled "Description" in the table below.

Any waste received at the premises must only be used for the activities referred to in relation to that waste in the column titled "Activity" in the table below.

Any waste received at the premises is subject to those limits or conditions, if any, referred to in relation to that waste contained in the column titled "Other Limits" in the table below.

This condition does not limit any other conditions in this licence.

Code	Waste	Description	Activity	Other Limits
NA	Virgin excavated natural material		Resource recovery Waste storage	
NA	Tunnel Spoil		Resource recovery Waste storage	The licensee can only receive material produced under "The NorthConnex tunnel spoil order 2018".

- L2.2 The licensee must not receive or process on the premises, more than 300,000 tonnes of waste per year.
- L2.3 The authorised amount of waste permitted on the premises cannot exceed 74,500 tonnes at any one time, unless approved in writing by the EPA.
- L2.4 The height of all stockpiles located on the premises must not exceed 8 metres.
- L2.5 Any non-conforming/unapproved waste found after receipt of any delivery to the premises must:
- be stored in an isolated and appropriately sign-posted area;
 - be removed from the premises within 5 business days of receipt of the non-conforming waste to a place that can lawfully accept that type of waste; and
 - have relevant details (for example, the date received, the amount and type of waste, the disposal location, and disposal date) recorded in a register that must be kept at the premises.

Environment Protection Licence

Licence - 21095

L3 Noise limits

- L3.1 The licensee must implement all feasible and reasonable noise and vibration abatement measures at the premises throughout the operation of the resource recovery facilities, to minimise noise and vibration impacts on nearby noise sensitive receivers. This must include, but is not limited to:
- constructing and maintaining a 3 metre high and 1 metre thick (at its narrowest) physical barrier, constructed of soil/rock between the processing plant and the nearest noise sensitive receivers, as depicted in the revised Noise Impact Assessment (NIA) dated April 2018, prepared by Muller Acoustic Consulting Pty Ltd for Lendlease Engineering Pty Limited; and
 - implementing noise mitigation measures outlined in the Northern Road Upgrade: Glenmore Parkway, Glenmore Park to Jamison Road, South Penrith: Addendum Review of Environmental Factors dated January 2018; and
 - employing further noise mitigation measures as may be necessary throughout the operation of the resource recovery facilities to minimise significant exceedances of Noise Management Levels (NML's) at nearby noise sensitive receivers; and
 - consideration of the Interim Construction Noise Guidelines (DECC, 2009).

L4 Hours of operation

- L4.1 Unless permitted by another Condition of this license, standard hours of operation for the resource recovery facilities must:
- only be carried out between the hours of 0700 and 1800 Monday to Friday; and
 - only be carried out between the hours of 0800 and 1300 Saturday; and
 - not be carried out on Sundays or Public Holidays.
- L4.2 Exemptions to standard hours of operation for low noise impact works

The following works and activities may be carried out outside of the hours specified in Condition L4.1 if the works and activities do not cause, when measured at the boundary of the most affected noise sensitive receiver:

- LAeq(15 minute) noise levels greater than 5dB above the day, evening and night rating background level (RBL) as applicable; and
- LA1(1 minute) or LAm_{ax} noise levels greater than 15dB above the night RBL for night works; and
- continuous or impulsive vibration values greater than those for human exposure to vibration, set out for residences in Table 2.2 in "Environmental Noise Management - Assessing Vibration: A Technical Guideline" (DEC, 2006); and
- intermittent vibration values greater than those for human exposure to vibration, set out for residences in Table 2.4 in "Environmental Noise Management - Assessing Vibration: A Technical Guideline" (DEC, 2006).

Note: For the purposes of this Condition, the RBLs are those contained in an environmental assessment for the scheduled activity subject to this licence prepared under the Environmental Planning and Assessment Act 1979. Alternatively, the licensee may use another RBL determined in accordance with the NSW Noise Policy for Industry (EPA, 2017) and provided to the EPA prior to carrying out any works or activities under this Condition.

- L4.3 Exemptions to standard hours of operation in exceptional circumstances

- The licensee may undertake works outside of standard hours of operation if any of the following

Environment Protection Licence

Licence - 21095

applies:

- i) emergency works is required to avoid the loss of lives or property, or to prevent material harm to the environment; and
 - ii) the delivery of oversized plant or structures has been determined by the police or other authorised authorities to require special arrangements to transport along public roads.
- b) The licensee must, on becoming aware of the need to undertake emergency work under this condition notify the EPA's Environment Line as soon as practicable and submit a report to the EPA by 2pm on the next business day after the emergency works commenced that describes:
- 1. the cause, time and duration of the emergency; and
 - 2. action taken by or on behalf of the licensee in relation to the emergency; and
 - 3. details of any measures taken or proposed to be taken by the licensee to prevent or mitigate against a recurrence of the emergency.

Note: For the purposes of this Condition, "material harm to the environment" has the same meaning as in section 147 of the POEO Act.

L4.4 Community agreement

Truck deliveries and unloading of material at the premises may be carried out outside of standard hours of operation, if agreement between the licensee and a substantial majority of noise sensitive receivers has been reached.

Note: This Condition applies to out-of-hours works that have not been approved by another Condition of this licence.

- L4.5 Any agreement(s) between the licensee and noise sensitive receivers referred to in Condition L4.4 must be:
- a) submitted to the EPA for approval prior to any truck deliveries and unloading of material that are the subject of the agreement being undertaken; and
 - b) prepared in writing and a copy of the agreement(s) kept on the premises by the licensee for the duration of this licence; and
 - c) kept on the licensee's project website for the duration of the agreement (personal details of residents must be omitted); and
 - d) prepared and implemented in accordance with Condition E1.

3 Operating Conditions

O1 Activities must be carried out in a competent manner

O1.1 Licensed activities must be carried out in a competent manner.

This includes:

- a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
- b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.

Environment Protection Licence

Licence - 21095

O2 Maintenance of plant and equipment

- O2.1 All plant and equipment installed at the premises or used in connection with the licensed activity:
- a) must be maintained in a proper and efficient condition; and
 - b) must be operated in a proper and efficient manner.

O3 Dust

- O3.1 The licensee must ensure that operations at the premises is carried on by such practicable means as may be necessary to minimise dust emissions on the premises, and implement all feasible and reasonable mitigation measures to minimise the release of dust from the premises.
- O3.2 All trucks carrying dry bulk material that enter and leave the premises must:
- a) have their loads covered at all times, except during unloading and loading; and
 - b) prevent spillage of any material from the load that may generate dust during truck unloading and loading events.

Note: For the purposes of this Condition, load is defined as material contained within the body/trailer/bin of the truck, and on the gunnels of the truck.

- O3.3 The licensee must ensure that no material, including (but is not limited to) mud, rocks, sediment or oil, is tracked from the premises onto the surface of surrounding roads.

O4 Processes and management

- O4.1 The licensee must maximise the diversion of run-on waters from lands upslope and around the site whilst land disturbance/resource recovery/storage activities are being undertaken.
- O4.2 The drainage from all areas that will mobilise suspended solids when stormwater runs over these areas must be controlled and diverted through appropriate erosion and sediment control measures.
- O4.3 The licensee must minimise the area of the site that is able to generate suspended material when water runs over it.
- O4.4 All soil erosion and sediment controls must be designed (stability, location, type and size), constructed, operated and maintained in accordance with the guideline "Managing Urban Stormwater - Soils and Construction, Volume 2D, Main Road Construction" DECC 2008, to be read and used in conjunction with Volume 1 "Managing Urban Stormwater: Soils and Construction" Landcom 2006.
- O4.5 The licensee must endeavour to maximise the reuse of captured stormwater on the premises.

4 Monitoring and Recording Conditions

M1 Monitoring records

Environment Protection Licence

Licence - 21095

- M1.1 The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.
- M1.2 All records required to be kept by this licence must be:
- a) in a legible form, or in a form that can readily be reduced to a legible form;
 - b) kept for at least 4 years after the monitoring or event to which they relate took place; and
 - c) produced in a legible form to any authorised officer of the EPA who asks to see them.
- M1.3 The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
- a) the date(s) on which the sample was taken;
 - b) the time(s) at which the sample was collected;
 - c) the point at which the sample was taken; and
 - d) the name of the person who collected the sample.

M2 Recording of pollution complaints

- M2.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.
- M2.2 The record must include details of the following:
- a) the date and time of the complaint;
 - b) the method by which the complaint was made;
 - c) any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
 - d) the nature of the complaint;
 - e) the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
 - f) if no action was taken by the licensee, the reasons why no action was taken.
- M2.3 The record of a complaint must be kept for at least 4 years after the complaint was made.
- M2.4 The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

- M3.1 The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.
- M3.2 The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.
- M3.3 The preceding two conditions do not apply until 5 business days after the date of the issue of this licence.

Environment Protection Licence

Licence - 21095

M4 Noise monitoring

- M4.1 Within 1 month of the resource recovery facility commencing operation at either premises, the licensee must submit a noise monitoring report to the EPA that comprises the following:
- noise monitoring results of operational noise from the premises at noise sensitive receivers; and
 - noise levels that have exceeded Noise Management Levels (NML's) at any noise sensitive receiver by more than 4 dB; and
 - a detailed description of proposed noise mitigation measures to reduce any exceedances greater than 4 dB above NML's.
- M4.2 All noise monitoring must be undertaken in accordance with Australian Standard AS 2659.1 - 1998: Guide to the use of sound measuring equipment - portable sound level meters, or any revisions of that standard which may be made by Standards Australia, and the compliance monitoring guidance provided in the NSW Noise Policy for Industry (EPA, 2017).
- M4.3 The licensee must undertake noise and vibration monitoring as directed by an Authorised Officer of the EPA.

5 Reporting Conditions

R1 Annual return documents

- R1.1 The licensee must complete and supply to the EPA an Annual Return in the approved form comprising:
- a Statement of Compliance,
 - a Monitoring and Complaints Summary,
 - a Statement of Compliance - Licence Conditions,
 - a Statement of Compliance - Load based Fee,
 - a Statement of Compliance - Requirement to Prepare Pollution Incident Response Management Plan,
 - a Statement of Compliance - Requirement to Publish Pollution Monitoring Data; and
 - a Statement of Compliance - Environmental Management Systems and Practices.

At the end of each reporting period, the EPA will provide to the licensee a copy of the form that must be completed and returned to the EPA.

- R1.2 An Annual Return must be prepared in respect of each reporting period, except as provided below.

Note: The term "reporting period" is defined in the dictionary at the end of this licence. Do not complete the Annual Return until after the end of the reporting period.

- R1.3 Where this licence is transferred from the licensee to a new licensee:
- the transferring licensee must prepare an Annual Return for the period commencing on the first day of the reporting period and ending on the date the application for the transfer of the licence to the new licensee is granted; and
 - the new licensee must prepare an Annual Return for the period commencing on the date the application for the transfer of the licence is granted and ending on the last day of the reporting period.

Environment Protection Licence

Licence - 21095

Note: An application to transfer a licence must be made in the approved form for this purpose.

- R1.4 Where this licence is surrendered by the licensee or revoked by the EPA or Minister, the licensee must prepare an Annual Return in respect of the period commencing on the first day of the reporting period and ending on:
- a) in relation to the surrender of a licence - the date when notice in writing of approval of the surrender is given; or
 - b) in relation to the revocation of the licence - the date from which notice revoking the licence operates.
- R1.5 The Annual Return for the reporting period must be supplied to the EPA via eConnect *EPA* or by registered post not later than 60 days after the end of each reporting period or in the case of a transferring licence not later than 60 days after the date the transfer was granted (the 'due date').
- R1.6 The licensee must retain a copy of the Annual Return supplied to the EPA for a period of at least 4 years after the Annual Return was due to be supplied to the EPA.
- R1.7 Within the Annual Return, the Statements of Compliance must be certified and the Monitoring and Complaints Summary must be signed by:
- a) the licence holder; or
 - b) by a person approved in writing by the EPA to sign on behalf of the licence holder.

R2 Notification of environmental harm

- R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.

Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

- R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which the incident occurred.

R3 Written report

- R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
- a) where this licence applies to premises, an event has occurred at the premises; or
 - b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence,
- and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.
- R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.
- R3.3 The request may require a report which includes any or all of the following information:
- a) the cause, time and duration of the event;

Environment Protection Licence

Licence - 21095

- b) the type, volume and concentration of every pollutant discharged as a result of the event;
- c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
- d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
- e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
- f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
- g) any other relevant matters.

R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

6 General Conditions

G1 Copy of licence kept at the premises or plant

- G1.1 A copy of this licence must be kept at the premises to which the licence applies.
- G1.2 The licence must be produced to any authorised officer of the EPA who asks to see it.
- G1.3 The licence must be available for inspection by any employee or agent of the licensee working at the premises.

7 Special Conditions

E1 Community Agreements

- E1.1 Requirements for community agreements

Any community agreement to permit works to be undertaken outside of standard hours of operation under Condition L4.5 must:

- a) be prepared and implemented in accordance with the relevant sections of the Interim Construction Noise Guidelines (DEC, 2009), the Noise Policy for Industry (EPA, 2017) and AS 2346-2010 Guide to noise and vibration control on construction, demolition and maintenance sites;
- b) detail the following:
 1. the actual works proposed;
 2. any expected impacts in clear, simple English based on noise modelling;
 3. the expected duration of the works;
 4. any expected benefits for receivers;
 5. any other concurrent out of hours works (OOHW) that will be occurring; and
 6. any other OOHW that will be occurring on the nights preceding and following the proposed works or, if

Environment Protection Licence

Licence - 21095

the proposed work precedes or follows a weekend period, any other OOHW that will be occurring on the weekend.

- c) demonstrate that the noise sensitive receivers party to the agreement understand the nature of the works and any predicted impacts; and
- d) be kept for the duration of the agreement and made available to an EPA Authorised Officer on request.

E1.2 Consultation and engagement

In relation to consulting and engaging with noise sensitive receivers for a community agreement, the following applies:

- a) all noise sensitive receivers predicted by modelling to be impacted by noise greater than 5 dB(A) above RBL must be consulted on any proposed community agreement. This includes noise sensitive receivers that have declined to participate in previous agreements;
- b) all proposed agreements must include details for interpreting services for languages other than English where required; and
- c) if a licensee is unable to contact a noise sensitive receiver after three attempts during the time of day that the proposed works would be undertaken, including leaving "sorry I missed you" cards explaining the reason for the visit and requesting a return phone call, then the licensee will note that the receiver could not be contacted and the receiver will not be considered to have either agreed or disagreed; and
- d) records of the attempts to contact the receiver will be kept by the licensee.

E1.3 Community agreements attained by phone

Where a community agreement has been reached with noise sensitive receivers over the phone, the following applies:

- a) the phone script used to describe the proposed agreement (including information required under Condition E1.1(b)) is to be provided to the EPA with the community agreement for approval; and
- b) the script must include a clear question requesting receiver agreement to the proposal; and
- c) detailed records are to be maintained by the licensee of all community agreement phone conversations and must be maintained for the duration of the community agreement; and
- d) any noise sensitive receiver who requests a copy of the phone agreement must be supplied with one.

E1.4 Notification

All noise sensitive receivers must be advised of any community agreement that has been attained in writing within seven days of the agreement being finalised and must:

- a) include a website link to the project website, specifically to a summary of the approved project agreement; and
- b) include details of the licensee's complaints line as required by Condition M3; and
- c) include details of the EPA's Environment Line.

E2 Special Dictionary

E2.1 Special Dictionary

Term	Meaning
------	---------

Environment Protection Licence

Licence - 21095

Business day	Excludes Saturdays, Sundays, public holidays.
Feasible and reasonable	Means feasible work practices that are practical to implement, while reasonable means work practices that take into account, the balance of costs and benefits, and community views.
Noise Management Level (NML)	Has the same meaning as "Airborne Noise Management Levels" in the Interim Construction Noise Guideline (DECC, 2009).
Noise sensitive receiver	Land uses that are sensitive to noise, such as residential areas, churches, schools and recreation areas.
Operating hours	Means hours during which any operational works or activities are being undertaken, including outside of standard hours of operation.
Out of hours works (OOHW)	Means works and activities undertaken outside of standard hours of operation.
Rating Background Level (RBL)	The same meaning as in the Noise Policy for Industry (EPA, 2017).
Standard hours of operation	Means the times specified in condition L4.1.

Environment Protection Licence

Licence - 21095

Dictionary

General Dictionary

3DGM [in relation to a concentration limit]	Means the three day geometric mean, which is calculated by multiplying the results of the analysis of three samples collected on consecutive days and then taking the cubed root of that amount. Where one or more of the samples is zero or below the detection limit for the analysis, then 1 or the detection limit respectively should be used in place of those samples
Act	Means the Protection of the Environment Operations Act 1997
activity	Means a scheduled or non-scheduled activity within the meaning of the Protection of the Environment Operations Act 1997
actual load	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
AM	Together with a number, means an ambient air monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
AMG	Australian Map Grid
anniversary date	The anniversary date is the anniversary each year of the date of issue of the licence. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.
annual return	Is defined in R1.1
Approved Methods Publication	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
assessable pollutants	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
BOD	Means biochemical oxygen demand
CEM	Together with a number, means a continuous emission monitoring method of that number prescribed by the <i>Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales</i> .
COD	Means chemical oxygen demand
composite sample	Unless otherwise specifically approved in writing by the EPA, a sample consisting of 24 individual samples collected at hourly intervals and each having an equivalent volume.
cond.	Means conductivity
environment	Has the same meaning as in the Protection of the Environment Operations Act 1997
environment protection legislation	Has the same meaning as in the Protection of the Environment Administration Act 1991
EPA	Means Environment Protection Authority of New South Wales.
fee-based activity classification	Means the numbered short descriptions in Schedule 1 of the Protection of the Environment Operations (General) Regulation 2009.
general solid waste (non-putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

Environment Protection Licence

Licence - 21095

flow weighted composite sample	Means a sample whose composites are sized in proportion to the flow at each composites time of collection.
general solid waste (putrescible)	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
grab sample	Means a single sample taken at a point at a single time
hazardous waste	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
licensee	Means the licence holder described at the front of this licence
load calculation protocol	Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009
local authority	Has the same meaning as in the Protection of the Environment Operations Act 1997
material harm	Has the same meaning as in section 147 Protection of the Environment Operations Act 1997
MBAS	Means methylene blue active substances
Minister	Means the Minister administering the Protection of the Environment Operations Act 1997
mobile plant	Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997
motor vehicle	Has the same meaning as in the Protection of the Environment Operations Act 1997
O&G	Means oil and grease
