Euro Medium Term Note Programme

Guaranteed by

Acciona, S.A.

(incorporated with limited liability under the laws of the Kingdom of Spain)

Under the Euro Medium Term Note Programme (the “**Programme**”) described in this base prospectus (the “**Base Prospectus**”), Acciona Financiación Filiales, S.A. Unipersonal (the “**Issuer**”), subject to compliance with all relevant laws, regulations and directives, may from time to time issue notes (the “**Notes**”). The aggregate nominal amount of Notes outstanding will not at any time exceed €3,000,000,000 (or the equivalent in other currencies). The Notes may be issued on a continuing basis to one or more of the Dealers specified below and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a “**Dealer**” and together the “**Dealers**”). Payments under the Notes will be unconditionally and irrevocably guaranteed by Acciona, S.A (the “**Guarantor**”).

This Base Prospectus has been approved by the Central Bank of Ireland (the “**Central Bank**”), as competent authority under Regulation (EU) 2017/1129 of the European parliament and of the Council of 14 June 2017, as amended (the “**Prospectus Regulation**”). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Issuer nor as an endorsement of the quality of the securities that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the securities that are the subject of this Base Prospectus. Such approval relates only to the Notes which are to be admitted to trading on a regulated market for the purposes of Directive 2014/65/EU on markets in financial instruments (as amended, “**MiFID II**”) and/or which are to be offered to the public in any Member State of the European Economic Area (the “**EEA**”). Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) for the Notes issued under the Programme during the period of 12 months from the date of this Base Prospectus to be admitted to the Official List and trading on its regulated market. References in this Base Prospectus to Notes being “listed” (and all related references) shall mean that such Notes have been admitted to the Official List and to trading on the regulated market of Euronext Dublin. The Programme provides that Notes may be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer.

The validity of this Base Prospectus shall expire on 5 May 2023. The obligation to supplement the Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies, does not apply when the Base Prospectus is no longer valid.

Each Tranche of Notes (as described below) will be issued on the terms set out herein under “*Terms and Conditions of the Notes*” as completed by a final terms document (the “**Final Terms**”) which, with respect to Notes to be listed on Euronext Dublin, will be delivered to the Central Bank on or before the date of issue of the Notes of such Tranche. In the case of any Notes which are to be admitted to trading on a regulated market within the EEA or offered to the public in a Member State of the EEA in circumstances which require the publication of a prospectus under the Prospectus Regulation, the minimum specified denomination shall be €100,000 (or its equivalent in any other currency as at the date of issue of the Notes).

Investing in the Notes issued under the Programme involves certain risks. For a discussion of these risks, see “Risk Factors”.

The Notes will be in bearer form. The Notes of each Tranche will be represented on issue by a temporary global note or a permanent global note (each a “**Global Note**”). If the Global Notes are stated in the applicable Final Terms to be issued in new global note form, they will be delivered on or prior to the original issue date of the relevant Tranche to a common safekeeper for Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”). Global Notes which are not issued in new global note form will be deposited on the issue date of the relevant Tranche with a common depositary on behalf of Euroclear and Clearstream, Luxembourg. See “*Form of the Notes*”.

DBRS Ratings GmbH (“**DBRS**”) has assigned a long-term corporate credit rating of “**BBB**” and a short-term rating of “**R-2 (middle)**” to the Guarantor and a “**BBB**” rating to the Programme. DBRS is established in the European Economic Area and registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the “**CRA Regulation**”). Tranches of Notes issued under the Programme may be rated by DBRS or other rating agency or be unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating assigned to the Programme. The rating(s), if any, of a certain series of Notes to be issued under the Programme will be specified in the relevant Final Terms. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Each of the Issuer and the Guarantor accepts responsibility for the information contained in this Base Prospectus and the Final Terms for each Tranche of Notes issued under the Programme. To the best of the knowledge of the Issuer and the Guarantor the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect its import.

The Arranger and the Dealers have not separately verified the information contained in this Base Prospectus. None of the Arranger or the Dealers makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Base Prospectus. None of the Arranger or the Dealers accepts any liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Issuer in connection with the Programme.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Guarantor, the Arranger or any of the Dealers. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently supplemented, or that there has been no adverse change in the financial position of the Issuer or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently supplemented, or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and the offering, sale and delivery of Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus comes are required by the Issuer, the Guarantor, the Arranger and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus and other offering materials in relation to the Notes, see “*Subscription and Sale*”.

MiFID II product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “*MiFID II Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (as amended, the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms in respect of any Notes may include a legend entitled “*UK MiFIR Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently

offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “*Prohibition of Sales to EEA Retail Investors*”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “*Prohibition of Sales to UK Retail Investors*”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (“**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Notification under section 309B(1)(c) of the Securities and Futures Act (Chapter 289) of Singapore, as amended from time to time (the “SFA”) – Unless otherwise stated in the Final terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “**CMP Regulations 2018**”) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on recommendations on Investment Products).

Canadian notice to investors – The Notes may be sold in Canada on a private placement basis only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in

National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable Canadian securities laws. Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Prospectus (including any amendment hereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Amounts payable under the Notes may be calculated by reference to the Euro Interbank Offered Rate (“**EURIBOR**”) which is provided by the European Money Markets Institute (“**EMMI**”) or any other benchmark, in each case as specified in the applicable Final Terms. As at the date of this Prospectus, the administrator of EURIBOR, EMMI, is included on the register of administrators and benchmarks (the “**ESMA Benchmarks Register**”) established and maintained by the European Securities and Markets Authority (“**ESMA**”) pursuant to Article 36 of Regulation (EU) 2016/1011 (as amended, the “**EU Benchmark Regulation**”).

Notes issued under the Programme will have the benefit of an English law governed deed of guarantee dated 5 May 2022 (the “**English Law Guarantee**”) or a Spanish law governed guarantee dated 5 May 2022 (the “**Spanish Law Guarantee**” and, together with the English Law Guarantee, the “**Guarantee**”). Payments under the Notes will be unconditionally and irrevocably guaranteed by the Guarantor pursuant to the English Law Guarantee unless the applicable Final Terms specify that the Notes are guaranteed pursuant to the Spanish Law Guarantee.

The Notes and the Guarantee have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”). Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons.

This Base Prospectus does not constitute an offer of, or an invitation by or on behalf of the Issuer, the Guarantor, the Arranger or the Dealers to subscribe for, or purchase, any Notes.

Neither this Base Prospectus nor any other financial statements are intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of the Issuer, the Guarantor, the Arranger or the Dealers that any recipient of this Base Prospectus or any other financial statements should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Base Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arranger undertakes to review the financial condition or affairs of the Issuer or the Guarantor during the life of the arrangements contemplated by this Base Prospectus or to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

This Base Prospectus describes in summary form certain Spanish tax implications and procedures in connection with an investment in the Notes (see “*Risk Factors – Risks in relation to the Notes – Risk in relation to Spanish taxation*” and “*Taxation – Taxation in Spain*”). No comment is made or advice is given by the Issuer, the Guarantor, the Arranger or the Dealers in respect of taxation matters relating to the Notes. Investors must seek their own advice to ensure that they comply with all procedures to ensure correct tax treatment of their Notes.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in financing, investment banking and/or commercial banking transactions (including the provision of loan facilities and/or

securitization transactions) and other related transactions with, and may perform financial and non-financial activities and services for, the Issuer, the Guarantor and their affiliates in the ordinary course of business. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer, the Guarantor or their affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer or the Guarantor routinely hedge their credit exposure to them consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purposes of this paragraph the term “affiliates” includes also parent companies.

In relation to the issue and subscription of any Tranche of Notes, fees and/or commissions may be payable to the relevant Dealers.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable final terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

INFORMATION RELATING TO “GREEN BONDS”

If so specified in the relevant Final Terms, the Issuer may issue Notes which are categorised as “Green Bonds” whose net proceeds are intended by the Issuer to be applied for the purposes of financing and/or refinancing, in whole or in part, green projects (as defined in the Green Financing Framework of the Group). In such circumstances, prospective investors should have regard to the information set out, or referred to, under the section of the Base Prospectus headed “*Use of Proceeds*” and “*Description of the Guarantor – Sustainability*” and the paragraph “*Reasons for the offer – Use of Proceeds*” of the relevant Final Terms and must determine for themselves the relevance of such information, together with any other investigation such investors deem necessary, for the purpose of any investment in such Notes and its suitability also in light of their own circumstances.

In connection with the issue of “Green Bonds” under the Programme, the Group has developed a green financing framework (such green financing framework, together with any amendment or supplement thereto and/or any future green financing framework adopted by the Group, the “**Green Financing Framework**”)

and has requested a provider of second-party opinions to issue a second-party opinion (such second party opinion, together with any amendment or supplement thereto and/or any further second party opinion issued in connection with the Group's Green Financing Framework, the "**Second Party Opinion**"). Such Green Financing Framework and Second-party Opinion (together with any amendment or supplement thereof and future Green Financing Framework or Second-party Opinion) will be available for inspection in the Sustainable Finance and Debt Issuances sections of the Group's website, at www.acciona.com.

However any information on, or accessible through, its website and the information in the Green Financing Framework and the Second Party Opinion is not part of this Base Prospectus and should not be relied upon in connection with making any investment decision with respect to any Notes to be issued under the Programme. In addition, no assurance or representation is given by the Issuer, the Guarantor, any other member of the Group, the Dealers or any other member of their group, or any second party opinion provider as to the suitability or reliability for any purpose whatsoever of any opinion of any third party in connection with the offering of any Green Bonds under the Programme. Any such document, opinion, report or certification and any other document related thereto is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus.

INTERPRETATION

All references in this Base Prospectus to "**euro**" refer to the lawful currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended from time to time.

In this Base Prospectus the words "**Group**" or "**Acciona Group**" refer to the Guarantor and its consolidated subsidiaries.

As used in this Base Prospectus, the term "**IFRS-EU**" refers to the International Financial Reporting Standards as adopted by the European Union.

The language of this Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

ALTERNATIVE PERFORMANCE MEASURES

Certain financial measures presented by the Group in this Base Prospectus are not defined in accordance with IFRS-EU accounting standards. The Group believes that these alternative performance measures (as defined in the European Securities and Markets Authority guidelines (the "**ESMA Guidelines**") on Alternative Performance Measures ("**APMs**") provide useful supplementary information to both investors and to the Group's management to assess the Acciona Group's performance. However, investors should note that, since not all companies calculate financial measures, such as the APMs presented by the Group in this Base Prospectus, in the same manner, these are not always directly comparable to performance metrics used by other companies. Additionally, the APMs presented by the Group in this Base Prospectus are unaudited and have not been prepared in accordance with IFRS-EU or any other accounting standards. Accordingly, these financial measures should not be seen as a substitute for measures defined according to IFRS-EU. The Group considers that the following metrics (which are set out below along with their reconciliation, to the extent that such information is not defined according to IFRS-EU) presented in this Base Prospectus constitute APMs for the purposes of the ESMA Guidelines:

"**EBITDA**" is defined as operating income before depreciation and amortisation and variations in provisions, and it therefore shows the operating result of the Group. It is calculated based on the following consolidated

income statement items: Revenue, Other revenue, Change in inventories of finished goods and work in progress, Cost of goods sold, Personnel expenses, Other operating expenses and Equity method profit/(loss) - analogous.

“Financial gearing” reflects the ratio of the Group's Net Financial Debt to equity. It is calculated by dividing Net Financial Debt (calculated as explained below) by equity.

“Gross Ordinary Capex” is defined as the period increase in the balance of property, plant and equipment, other intangible assets, non-current financial assets, investments accounted for using the equity method, investment property, and rights of use under financial leasing contracts, adjusted for the following items:

- Depreciation, amortisation and impairments for the period
- Year's profit/(loss) of companies accounted for using the equity method
- Profit/(loss) on disposals of non-current assets
- Changes due to fluctuations in exchange rates

In the case of changes in the consolidation perimeter, gross ordinary capex is defined as the change in net financial debt excluding IFRS 16 arising from a transaction.

“Net Financial Debt” shows the Group's debt, in net terms, deducting cash and current financial assets. It is calculated based on the following consolidated balance sheet items: non-current and current Bank borrowings, Debentures and other marketable securities and Lease obligations, less Cash and cash equivalents and Other current financial assets.

“Net Ordinary Capex” is defined as Gross Ordinary Capex plus or minus changes in other payables due to suppliers of property, plant, and equipment providers.

The Group uses these APMs to make financial, operational or planning decisions. They are also used to evaluate the performance of the Group and its subsidiaries.

The Group considers these APMs provide useful additional financial information to evaluate the performance of the Group and its subsidiaries as well as for decision-making by the users of the financial information.

Certain additional APMs are used in, and defined by, the directors' reports of the Guarantor for the financial years ended 31 December 2021 and 31 December 2020, both of which are incorporated by reference into this Base Prospectus (see *“Documents incorporated by reference”*).

Optional redemption	<p>The Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the Issuer (either in whole or in part) and/or the holders.</p>
Maturity Call Option and Clean-Up Call Option	<p>The applicable Final Terms in respect of each issue of Notes will state whether Notes may be redeemed prior to their stated maturity at the option of the Issuer pursuant to an Issuer Maturity Call Option or a Clean-up Call Option. See Condition 6(e) (<i>Issuer Maturity Call Option</i>) and Condition 6(f) (<i>Clean-up Call Option</i>).</p>
Change of Control	<p>The Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the holders upon the occurrence of a Change of Control as further described in Condition 6(h) (<i>Redemption or purchase at the option of Noteholders following a Change of Control (Change of Control Put Option)</i>).</p>

Status of the Notes	The Notes and Coupons relating to them constitute (subject to Condition 4 (<i>Negative Pledge</i>)) unsecured obligations of the Issuer and shall at all times rank pari passu and without any preference among themselves. The payment obligations of the Issuer under the Notes and the Coupons relating to them shall, save for such exceptions as may be provided by applicable legislation and (subject to Condition 4 (<i>Negative Pledge</i>)), at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Issuer, present and future.
Guarantee	The Notes will be unconditionally and irrevocably guaranteed by the Guarantor pursuant to the English Law Guarantee unless the applicable Final Terms specify that the Notes are guaranteed pursuant to the Spanish Law Guarantee.
Status of the Guarantee	The Guarantee constitutes (subject to Condition 4 (<i>Negative Pledge</i>)) unsecured obligations of the Guarantor. The payment obligations of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and (subject to Condition 4 (<i>Negative Pledge</i>)), at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Guarantor, present and future.
Negative Pledge	The Notes will have the benefit of a negative pledge, as described in Condition 4 (<i>Negative Pledge</i>).
Cross default	The Notes will have the benefit of a cross default provision, as described in Condition 10 (<i>Events of Default</i>).
Tax redemption	The Issuer may redeem the Notes at any time, in whole but not in part, at their principal amount plus accrued and unpaid interest, if any, to the date of redemption if the Issuer has or will become obliged to pay additional amounts as a result of any change in, or amendment to, certain tax laws and regulations and such obligation cannot be avoided by the issuer taking reasonable measures to it. See Condition 6(c) (<i>Redemption for Taxation Reasons</i>).
Withholding tax	<p>The payment of interest and other amounts in respect of the Notes will be made free of withholding taxes in Spain, unless such taxes are required by law to be withheld. In such case the Issuer will pay additional amounts as may be necessary in order that the net amounts receivable by the Noteholder after such deduction or withholding shall equal the respective amounts which would have been receivable by such Noteholder in the absence of such deduction or withholding; except that no such additional amounts shall be payable in certain circumstances set out in the Conditions. See Condition 8 (<i>Taxation</i>).</p> <p>The Issuer considers that, according to Royal Decree 1145/2011, it is not obliged to withhold any tax amount provided that the simplified information procedures (which do not require identification of the Noteholders) are complied with by the Fiscal Agent, as described in “<i>Taxation – Taxation in Spain – Disclosure obligations in connection with payments on the Notes</i>”.</p>

In the event that the currently applicable procedures are, after the date of this Base Prospectus, modified, amended or supplemented by any Spanish law or regulation, or any ruling of the Spanish Tax Authorities (*Dirección General de Tributos*), the Issuer will inform the Noteholders of any such change in the information procedures and of any implications such changes may have for the Noteholders. In particular, there can be no assurance that the Issuer will not be required to apply withholding tax on interest payments under the Notes as a result of any such changes in the information procedures. In such event, the Issuer would not pay any additional amounts.

For further information, see “*Risk Factors – Risks in relation to Spanish taxation*”, Condition 8 (*Taxation*) and “*Taxation – Taxation in Spain – Disclosure obligations in connection with payments on the Notes*”.

RISK FACTORS

Investing in the Notes issued under the Programme involves certain risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Guarantor and the industry in which they operate together with all other information contained in this Base Prospectus, including, in particular the risk factors described below. Words and expressions defined in the Conditions below or elsewhere in this Base Prospectus have the same meanings in this section.

The following is not an exhaustive list or explanation of all risks which investors may face when making an investment in the Notes but are the material risks that the Issuer and the Guarantor believe to be the most relevant to an assessment by a prospective investor of whether to consider an investment in the Notes. Additional risks and uncertainties relating to the Issuer and the Guarantor that are not currently known to the Issuer and the Guarantor, or that they currently deem immaterial, may individually or cumulatively also have a material adverse effect on the business, financial condition and results of operations of the Issuer and the Guarantor and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Prospective investors should consider carefully whether an investment in the Instruments is suitable for them in light of the information in this Base Prospectus (including any documents incorporated by reference herein) and their personal circumstances.

The risk factors set out below are applicable to the Issuer, as a member of the Acciona Group, and to the Guarantor.

The Acciona Group is affected by a series of risk factors that affect exclusively the Group, as well as a series of external factors that are common to businesses of the same sector. The main risks and uncertainties faced by the Group, which could affect its business, financial condition, results of operations and/or cash flows are set out below and must be considered jointly with the information set out in the consolidated annual accounts for the financial year ended 31 December 2021.

These risks are currently considered by Acciona Group to be specific to the Group and material for taking an informed investment decision in respect of the Notes. However, the Acciona Group is subject to other risks that have not been included in this section based on the Acciona Group's assessment of their probability of occurrence and the potential magnitude of their impact.

Risks in relation to the business of Acciona Group

Business in a highly regulated environment and the need to obtain permits, licenses and authorizations to carry out the Group's activities

The Acciona Group is subject to extensive regulation that governs the performance of many of its activities in the countries where the Group operates, including for the construction, development and operation of wind farms, solar plants and other power plants, the development of infrastructures and other civil works or the awarding and operation of concessions, and also the remuneration that the Group can obtain from those activities. In addition, the Group is subject to significant demands with respect to obtaining and complying with the requirements of permits, licenses and authorizations, which may take the form of urban planning authorisations (such as construction permits), mandatory environmental impact assessments or studies, production and operation authorisations, authorisations to connect to the grid and other specific authorisations related to the presence of protected sites in proximity to the Group's projects. The process of obtaining permits, licenses and authorisations may be long, complex and expensive. This exposes the Group to costs and liabilities relating to, among others, the Group's operations and the management of its projects.

The Group's failure to comply or ensure compliance of its installations with any applicable laws and regulations, or to maintain any required licenses, permits or other authorisations, may result in sanctions by regulatory authorities and/or the halting of projects that are already in operation. In addition, any breach of the Group's regulatory obligations, or even incidents that do not amount to a breach, could have a material adverse effect on the Group's reputation. Any of the foregoing could have a material adverse effect on the Group's business, financial condition and results of operations.

The group may be affected by liquidity and availability of funding risks

The Group's activities are capital intensive and it needs to make significant investments to develop, construct and subsequently operate its projects. The Group's ability to obtain additional financing, or to do it in acceptable terms, is dependent on numerous factors, including (i) general economic outlook and capital markets conditions; (ii) credit availability from banks and other financial institutions; and (iii) the Group's financial performance. The Group's failure to enter into new or replacement financing agreements or to obtain additional indebtedness may have a material adverse effect on the Group's business, financial condition and results of operations.

The Group can give no assurance that it will be able to continue to secure financing on acceptable terms, or at all, in the future. Financial markets can be subject to periods of volatility and shortages of liquidity, the frequency and intensity of which may be exacerbated by external factors, as evidenced in 2020 by the COVID-19 pandemic. If the Group is unable to access capital markets or obtain other sources of finance at competitive rates, or at all, for a prolonged period, the Group's cost of financing may increase, its ability to fund its operations may be significantly impaired and its strategy may need to be reassessed (including with regards to its pipeline), which could have a material adverse effect on the Group's business, financial condition and results of operations.

In addition to obtaining new funding, the Group may seek to refinance its existing debt. The Group can give no assurance of the availability of financing on acceptable terms to refinance its existing indebtedness. If new financing is not available or proves more expensive than in the past, the Group's business, financial condition and results of operations may be materially adversely affected.

A deterioration in economic conditions worldwide and, particularly, in Spain, could have a material adverse effect on the Group's business, financial condition and results of operations

The Group's business is influenced by the economic conditions worldwide and particularly in Spain and other countries where it operates. Any adverse changes affecting the Spanish economy or the economy of the other countries in which the Group is present could have a negative impact on its revenues and/or increase its financing costs, circumstances which could have a material adverse effect on the business, financial condition and results of operations of the Group.

Spain, which accounted for a significant portion of the Group's turnover for the year ended 31 December 2021 progressed in recent years to control the public deficit and correct the country's economic imbalances and growth resumed supported by external demand as well as higher domestic demand, reflecting improved financial conditions and rising confidence. The crisis derived from the coronavirus ("COVID-19") pandemic and the measures implemented by governmental authorities around the world to reduce its spread, including isolation, confinement and restriction of free movement, the closing of public and private places except for premises providing essential and healthcare services, curfews, border restrictions and a drastic reduction in transport, abruptly and significantly deteriorated economic conditions worldwide, causing falls in production, volatility in financial markets and disruption of the normal flow of business operations in Spain and in other countries in which the Group operates. The measures adopted by governmental authorities and the diffusion of vaccines have mitigated the effects of COVID-19 but the emergence of new COVID-19 variants, such as

Omicron at the end of 2021, could prolong the pandemic and induce renewed economic disruptions affecting the Spanish economy or the economy of the countries in which the Group operates, circumstances which could have a negative impact on the Group's consolidated revenues and increase the Group's consolidated financing costs, which in turn could have a material adverse effect on the business, financial condition and results of operation of the Group.

The Spanish economy is particularly sensitive to economic conditions in the Eurozone and any distress in the European economic activity. The Eurozone has seen a rise of inflation, following a significant increase in energy prices and supply chain disruptions. The Eurozone economic activity may be further affected by the outbreak of the military conflict in Ukraine at the end of February 2022 and the geopolitical uncertainty originated by it or the potential for its escalation, or by the consequences and impact of the international economic sanctions imposed on Russia and Belarus as a result of it. The Group is not present in these countries but it has investments in neighboring Poland and a limited operation in Ukraine, consisting on 6 PV plants that produce 98 MW. Although its impact is highly uncertain, this conflict or the rising of other international tensions could cause upheaval in energy and commodity markets, increase the price of raw materials, affect trade or result in volatile capital markets or otherwise adversely affect financing conditions in Spain or the countries in which the Group operates, any of which could have a material adverse effect on the business, financial condition and results of operations of the Group.

The Group may be subject to risks in relation to its international operations and expansion

The Group operates an international business with presence in, among others, Australia, Brazil, Canada, Chile, Ecuador, India, Mexico, Norway, Poland, South Africa, Spain, United Arab Emirates and the United States of America. International operations expose the Group to different local political, regulatory, business and financial risks. The Group's overall success as a global business depends, in part, upon the ability to succeed in different economic, social and political conditions. The economies of these countries are in different stages of development and may have less stable political or legal environments, which pose specific risks related to exchange rate fluctuations, capital movement restrictions, inflation, political and economic instability and possible state expropriation of assets or difficulties to manage local teams or attract and retain qualified personnel, all of which could have a material adverse effect on the Group's business, financial condition and results of operations.

The Group plans to continue the geographical expansion of its business into new countries and markets. However, the Group may not achieve results in these new countries and markets similar to those achieved in the locations where it currently operates. Furthermore, the Group may have difficulty hiring experts or qualified executives or employees for the countries where it expands. Failure to successfully implement its international expansion plans could have a material adverse effect on the Group's business, financial condition and results of operations.

The Group may be subject to environmental risks

The Group is subject to environmental regulations, which, amongst other things, require it to carry out environmental impact studies on future projects, to obtain regulatory licenses, permits and other approvals and to comply with the requirements of such licenses, permits and regulations. This exposes the Group to costs and liabilities relating to its operations, the management of its projects or the disposal of its waste.

The Group is firmly committed to sustainable development and invests significant resources to complying with environmental laws and regulations. A stricter application of these laws and regulations, the entry into force of new laws, the discovery of previously unknown sources of pollution or the imposition of new or more stringent requirements may increase the Group's costs and responsibilities, which could have a material adverse effect on the Group's business, financial condition and results of operations. Furthermore, any breach

of its regulatory obligations, or even incidents that do not amount to a breach, could have a material adverse effect on the Group's results of operations and its reputation.

The Group may be subject to procurement risks

The Acciona Group requires different materials and components for the construction of its projects and, in certain cases (e.g. turbines for the energy business) relies on a limited number of suppliers. If the Group is not able to obtain materials and components for its projects that meet its quality, quantity and cost standards on time, the Group's capacity to construct a project could be interrupted and its production costs could be increased. Furthermore, even well-maintained projects may from time to time experience technical problems or breakdowns as a result of various factors including erroneous installation or malfunction of components, which may require extensive repair. There is a risk that if the appropriate spare parts are not readily available, production may be delayed. Materials and components from new suppliers may also be less suitable for the Group's technology and result in its projects having a lower availability rate, which could have a material adverse effect on the Group's business, financial condition and results of operations.

Additionally, the cost of materials and components may increase or fluctuate due to numerous factors that are outside of the Group's control, such as unfavourable changes in the costs of the natural resources needed for its activities which may be caused by the adoption of embargoes or other trade measure between governments, supply chain disruptions or other external events (such as the COVID-19 pandemic or as may result of the Ukraine conflict and the international sanctions imposed in connection with it). These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations.

Intense market competition may unfavourably affect the Group

The markets for the Group's businesses may change rapidly because of changes in customer requirements, technological innovations, prices, industry standards, government-driven actions and domestic and international economic factors. The markets for the Group's business are highly competitive and are continually evolving, and the Group faces significant competition in each of the markets in which it operates. Competitors frequently bid aggressively in the tenders in which the Group participates, calculating their bids based on assumptions of low prices for project components, as well as low construction, maintenance, capital and other costs. Such bids may put downward pressure on the average sale price and may make it more difficult for the Group to submit winning bids at prices that ensure targeted or sufficient returns, in particular to cover the debt financing of the relevant projects.

In addition, in each of the markets in which the Group operates, the Group faces competition from local as well as global participants, many of which benefit from extensive experience (both domestically and internationally) in the development and operation of electrical generation facilities, as well as from financial resources, technical capabilities or local awareness that may be comparable to or greater than the Group's. Additionally, new competitors may decide to enter the Group's market as a result of, among other factors, lower initial resource analysis and development costs in comparison with the average costs in these concepts in other energy industries. Increased competition may materially adversely affect the Group's business, financial condition and results of operations.

The Group may be subject to impairment losses

The Group has property, plant and equipment located in different geographical areas which are subject to different regulatory environments. In accordance with the applicable financial reporting framework, at the end of each financial year, the Group assesses whether there is any indication of possible impairment or any evidence of changes in the facts or circumstances that gave rise to the previously-recognized impairment and any changes in regulations or other aspects that could modify future cash flow expectations. Determining and

assessing these indicators involves significant estimates and assumptions by directors and management, and any failure in such determination and assessment could materially and adversely affect the Group's business, financial condition and results of operations.

The Group may be subject to interest rate risks

Interest rate risk is particularly important in relation to the financing of infrastructure projects, concession arrangements, construction of wind farms or other energy facilities and other projects in which the project's cash flows and profitability are affected by possible changes in interest rates. The Group's loans and lines of credit for the most part accrue interest referenced to Euribor for financing in euros, although some of the Group's debt is also referenced to other indices such as Libor (in process of transition to SOFR) for debt in U.S. dollars and other indices.

The Group uses derivatives to actively manage the interest rate risk and minimise its impact. The level of debt hedged in each project depends on the type of project and the country in which the investment is made. Should the policies implemented by the Group to mitigate the adverse effects caused by interest rate fluctuations prove to be inadequate, this could have a material adverse effect on the Group's business, financial condition and results of operations.

The Group may be subject to exchange rate risks

Due to the geographic reach of its business operations, the Group conducts business in various currencies, which exposes it to exchange rate risk. The Group is exposed to exchange rate risk primarily arising from debt assumed in foreign currencies, receivables referenced primarily to the evolution of currencies other than the euro and investments in foreign companies. To mitigate exchange rate risk, non-current assets in currencies other than the euro are financed in the same currency in which the assets are denominated and other transactions and cash flows in foreign currency are hedged.

Although the Group enters into hedging arrangements to cover exchange rate risk, there can be no assurance that any current or future hedging contracts will adequately protect the Group's results of operations from the effects of exchange rate fluctuations or will not result in losses which could impair its ability to successfully compete in the market. Any of these risks could be exacerbated in periods of increased volatility in exchange rates such as that experienced in 2020 as a result of the COVID-19 pandemic.

The business, financial condition and results of operations of the Group could be materially adversely as a result of any of the above risks.

The Group may be subject to litigation and other legal, administrative and regulatory proceedings

The Acciona Group is subject to the risk of legal claims and proceedings and regulatory enforcement actions in various jurisdictions arising in the ordinary course of its business and otherwise. See "*Description of the Guarantor – Litigation*".

The Group is involved in legal proceedings from time to time and this situation may be exacerbated by any future growth of its operational portfolio. For example, the Group has, and may in the future have additional partners in projects who may initiate legal proceedings against the Group if it fails to perform its obligations under the contracts that the Group has or may have, with them, as applicable. Claims brought against the Group could include, among others, claims for late completion of the projects and claims for failure to deliver the agreed amount of energy.

The results of legal, administrative and regulatory proceedings cannot be predicted with certainty. Even if such proceedings are ultimately resolved in favour of the Group, they may divert a significant amount of its

resources and employees' time or result in negative publicity, to the detriment of its business and reputation. Alternatively, such proceedings may result in substantial monetary damages, regulatory sanctions or even criminal sanctions, as well as damage to its reputation. There is no assurance that the results of current or future legal, administrative or regulatory proceedings or actions will not materially harm the Group's business, financial condition and results of operations, nor can it guarantee that it will not incur losses in connection with current or future legal, administrative or regulatory proceedings or actions that exceed any provisions that it may have set aside in respect of such proceedings or actions or that exceed any available insurance coverage, any of which could have a material adverse effect on the Group's business, financial condition and results of operations.

Risks in relation to the energy business of Acciona Group

Difficulties in connecting to distribution or transmission grids or a lack of transmission capacity could impact the Group's ability to build its projects and to sell the electricity that it generates

In order to sell the electricity generated by its energy projects, the Group must connect them to the public distribution grid and, to a lesser extent, the electrical transmission grid. The Group's ability to build a project at a given location depends significantly on its ability to connect the project to the distribution and/or transmission grids. Successful connection to the grid depends on several factors, which vary from one country to another. These factors include, among others, the scope of the transmission infrastructure construction and the reliability and presence of local transmission infrastructure. There can be no assurance that the group will obtain adequate grid connections for its energy projects within the expected time periods and at the expected cost. Further, the Group may be affected by a lack of available capacity in the grid, due to congestion, grid manager restrictions, overproduction by connected facilities or excessive fluctuations in electricity market prices. Any of these factors could have a material adverse effect on the Group's business, financial condition and results of operations.

The Group's power purchase agreements may expose it to certain risks which may affect the Group's business, financial condition and results of operations

The Group's projects often sell electricity under long term power purchase agreements ("PPA") with counterparties, including government actors, state-owned and non-state owned utilities and corporate offtakers. Failure of PPA counterparties to fulfil their contractual obligations to the Group could have a material adverse effect on the Group's business, financial condition and results of operations.

Further, the Group's PPAs may be terminated by the relevant counterparty, subject to the payment of penalties, under certain circumstances such as material delays or lack of achievement of contracted energy volumes, amongst others. The termination of significant PPAs, particularly with respect to the Group's larger power generating assets, could have a material adverse effect on the Group's business, financial condition and results of operations.

The maintenance, refurbishment and dismantling of the Group's projects involve significant risks

The operation of the Group's energy projects involves risks that include the breakdown or failure of equipment or processes or performance below expected levels of output or efficiency. Periodically, the Group experiences failures or interruptions in the operation of its turbines or substations or other material components of its projects. Such failures and performance issues can stem from a number of factors, including human error, intentional damage, power outages, fires, lack of maintenance, general wear over time and other unexpected events. The Group may also be obligated to dismantle certain assets and restore the site to its original state.

Any unanticipated investments at the Group's facilities, including in connection with the maintenance, refurbishment and dismantling of the Group's projects, could result in reduced profitability, which could have a material adverse effect on the Group's business, financial condition and results of operations.

Fluctuations in market electricity prices

Market electricity prices often exhibit high volatility and depend on a number of factors including, but not limited to, the level of demand, the time of day, carbon prices, the availability and cost of generating capacity available to meet demand, and the structure of the particular markets, including the rules that determine the order in which generating capacity is dispatched and factors affecting the volume of electricity that can be handled by the available transmission infrastructure at a given point in time. The prices at which the energy that the Group produces may be sold in the market depend in part on the relative cost, efficiency and investment needed to develop and operate conventional energy sources (including oil, coal, natural gas and nuclear energy) and renewable energy sources such as those that the Group operates. A decline in the costs of other sources of electricity, such as fossil fuels or nuclear power, could reduce the price of electricity. A significant amount of new electricity generation capacity becoming could also reduce the price of electricity.

There can be no assurance that market prices will remain at levels which enable the Group to maintain profit margins and desired rates of return on investment. A decline in market electricity prices could have a material adverse effect on the Group's business, financial condition and results of operations.

The production of electricity from renewable resources depends heavily on weather conditions

The production of the Group's energy projects depends largely on natural resources, such as wind intensity or speed, solar irradiation or rainfall. Although the Group plans its projects based on meteorological historical patterns, these resources are outside of the Group's control and may vary significantly over time. If unfavourable meteorological conditions were to occur, particularly over the long term, they could negatively affect the profitability of impacted projects, which could have a material adverse effect on the Group's business, financial condition and results of operations.

Unfavourable changes in regulations or government policies in support of renewable energies could significantly affect the Group's business

The Group's business and, in general, renewable energy markets, including the development, construction and operation of projects, depend to a significant extent on the continued support of governmental and local authorities. These policies and mechanisms typically enhance the commercial and financial viability of renewable energy projects and often make it easier for developers to secure financing.

A number of factors could result in the reduction or discontinuation of government policies in support of renewable energy in the different jurisdictions in which the Group operates, including pressure to improve the competitiveness of renewable energy products, unfavourable changes, or uncertainty, in feed-in tariffs, political developments which could lead to a deterioration in the conditions for support for renewable energies; and legal challenges to subsidy regimes for renewable energy generation. Any of these circumstances could have a material adverse effect on the Group's business, financial condition and results of operations.

In addition, public authorities in Spain and in other countries in which the Group is present are currently considering, or may consider in the future, new regulations or other measures to limit the increase of the price of electricity, either directly or through a limitation of the price of other energy sources, such as natural gas, or the market price of emission rights. These new regulations or measures could reduce or impact in other ways the revenues of the Group from the sale of electricity which could have a material adverse effect on the Group's business, financial condition and results of operations.

Risks in relation to the construction and water business of Acciona Group

Decreases in the funds allocated to civil engineering projects

The civil engineering investments included in the annual budget for each of the countries where the Group is present or targeting depend principally on two factors: the government budgetary policy and the economic conditions existing at the time in each country. In Spain as well as in other countries in which the Acciona Group operates, the Group has experienced, and may experience in the future, a reduction in the market levels of tendered civil engineering works. Any decrease in the spending on development and execution of civil engineering projects by governments and local authorities could adversely affect the Group's business, financial condition and results of operations. The delay, suspension or cancellation of private sector projects may also adversely affect the Group's business, financial condition and results of operations.

Reductions in project procurement

The construction business is highly competitive. In the tendering stage of any civil engineering works, the Group competes against various groups and companies, including large construction groups or engineering companies that may have more experience, resources or local awareness than the Group does. Furthermore, these groups and companies may have greater resources, whether material, technical or financial, or may demand lower returns on investment and be able to present better technical or economic bids.

In these circumstances, the Group may be unable to secure contracts for new civil engineering projects in the geographical areas in which it operates or be obliged to accept the execution of certain projects with lower returns than those obtained in the past. If the Group is unable to obtain sufficient contracts for new civil engineering projects or can only do it under less favourable terms, these circumstances could have a material adverse effect on the Group's business, financial condition and results of operations.

Construction projects may be delayed or exceed their budget

All large-scale construction projects entail certain risks, such as shortages and the increased costs of materials, machinery and labour. In recent times, the rise of energy prices and disruption of supply chains have caused supply bottlenecks and scarcity or price increases of materials and components that the Group requires for its construction projects. Any failure by contractors and sub-contractors to meet the agreed deadlines and budgets, and any interruptions arising from adverse weather conditions or unexpected technical or environmental difficulties, or other circumstances, such as experienced in 2020 as a result of the Covid-19 pandemic, may cause delays and excess construction costs. Construction agreements with contractors and sub-contractors tend to include contractor and sub-contractor liability clauses to cover these situations, although they may not cover all losses. Additionally, if there are delays, the Group may face a reduction of revenues, penalties and even termination of construction contracts, any of which could have a material adverse effect on the Group's business, financial condition and results of operations.

Additional risks in relation to the water business of Acciona Group

Liability for environmental damages

The Group's water division develops and manages desalination plants, wastewater treatment plants, and infrastructures for the supply of drinking water and urban sanitation. In the event of malfunctions, certain discharges into the environment, environmental contamination or damages, these could result in significant liabilities being imposed for damages, clean-up costs or penalties. The Group's insurance for environmental liability may not be sufficient or may not apply to any exposure to which it may be subject resulting from the type of environmental damage, and this could have a material adverse effect on the Group's business, financial condition and results of operations.

Adverse public reaction to water and industrial waste management facilities

Although to date the Group has not encountered major problems, it may face adverse public opinion to its water and waste recycling activities near inhabited areas, the expansion of such existing facilities or the construction of new facilities. These circumstances could result in restrictions to the current activities of the Group or its plans for future expansion, which could adversely affect its business, financial condition and results of operations.

Risks in relation to credit ratings

The Group may be subject to risks in relation to the credit rating of the Guarantor

DBRS has assigned a long-term corporate credit rating of “BBB” and a short-term rating of “R-2 (middle)” to the Guarantor and a “BBB” rating to the Programme. Tranches of Notes issued under the Programme may be rated by DBRS or other rating agency or be unrated.

There is no guarantee that the credit rating currently assigned to the Guarantor or the Programme, or any rating assigned to Tranches of Notes issued under the Programme, will be maintained over time, as credit ratings are periodically reviewed and updated. Therefore, these credit ratings may suffer downgrades and may be suspended or withdrawn at any time by the relevant credit rating agency. Such ratings may not reflect the potential impact of all risks discussed herein, and other factors that may affect the value of any Tranche of Notes. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. In addition, credit ratings affect the cost as well as other conditions in relation to the financing of the Group. Any downgrade of the credit rating of the Guarantor would increase the borrowing costs of the Group and could restrict or limit the access to financial markets, which could adversely affect the liquidity of the Group and could have a material adverse effect on the Group’s business, financial condition and results of operations.

Risks relating to withholding

Risks in relation to Spanish taxation

Article 44 of Royal Decree 1065/2007, as amended by Royal Decree 1145/2011, sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 10/2014. The procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

According to the literal wording of Article 44.5 of Royal Decree 1065/2007, income derived from securities originally registered with the entities that manage clearing systems located outside Spain, and are recognised by Spanish law or by the law of another OECD country will be paid free of Spanish withholding tax provided that the relevant paying agent submits to the relevant issuer in a timely manner a statement with the following information: (a) identification of the securities; and (b) total amount of the income corresponding to each clearing system located outside Spain. These obligations refer to the total amount paid to investors through each foreign clearing house. For these purposes, “income” means interest and the difference, if any, between the aggregate amount payable on the redemption of the Notes and the issue price of the Notes.

On 5 May 2022 the Issuer, the Guarantor and The Bank of New York Mellon, London Branch (the “**Fiscal Agent**”) entered into an amended and restated fiscal agency agreement (the “**Agency Agreement**”) where they have arranged certain procedures to facilitate the collection of information concerning the Notes.

In accordance with Article 44 of Royal Decree 1065/2007 as amended by Royal Decree 1145/2011, the Fiscal Agent should provide the Issuer with the above statement, in the form attached to the Agency Agreement, on the business day immediately prior to each interest payment date. The statement must reflect the situation at

the close of business of that same day. In the event that on such date, the entity obliged to provide the declaration fails to do so, the Issuer or the Paying Agent on its behalf will make a withholding at the general rate (currently 19 per cent.) on the total amount of the return on the relevant Notes otherwise payable to such entity and will not gross up payments in respect of any such withholding tax.

However, the Spanish Tax Authorities may eventually issue a tax ruling to clarify the interpretation of the currently applicable procedures and it cannot be completely disregarded that such ruling determines that the Issuer, that is tax resident in Spain, should apply a withholding on payments to individuals with tax residence in Spain. If this were the case, identification of Noteholders may be required and the procedures, if any, for the collection of relevant information will be applied by the Issuer so that it can comply with its obligations under the applicable legislation as clarified by the Spanish Tax Authorities. Neither the Issuer, the Arranger nor the Dealers assume any responsibility thereof.

In the case of Notes held by Spanish resident individuals (and under certain circumstances by Spanish entities subject to Spanish Corporate Income Tax) and deposited with a Spanish resident entity or a Spanish permanent establishment acting as depositary or custodian, payments in respect of the Notes may be subject to withholding by such depositary or custodian, currently at a 19 per cent. rate.

If this were to happen, the Issuer would not gross up payment in respect of any such withholding tax.

Risks in relation to the Notes

No active trading market for the Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Risks in relation to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features.

Partly-paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

In addition, with respect to the Clean-up Call Option (Condition 6(f)), there is no obligation on the Issuer to inform investors if and when 80% or more of original aggregate principal amount of the relevant Tranche of Notes has been redeemed or is about to be redeemed, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Clean-up Call Option the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

Risks in relation to the Notes generally

Modification, waivers and substitution

The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority. The Conditions provide that the Issuer may, without the consent of Noteholders, substitute for itself as principal debtor under any Notes another company.

Certain benchmark rates, including EURIBOR, may be discontinued or reformed in the future.

The Euro Interbank Offered Rate (“**EURIBOR**”) and other interest rates or other types of rates and indices which are deemed to be benchmarks are the subject of ongoing national and international regulatory discussions and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

The EU Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the EU. Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the “**UK Benchmarks Regulation**”) applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK. The EU Benchmarks Regulation or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the terms of the EU Benchmark Regulation or UK Benchmark Regulation, and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level, of the benchmark. More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the

setting of a benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the discontinuance or unavailability of quotes of certain “benchmarks”.

As an example of such benchmark reforms, on 21 September 2017, the European Central Bank announced that it would be part of a new working group tasked with the identification and adoption of a “risk free overnight rate” which can serve as a basis for an alternative to current benchmarks used in a variety of financial instruments and contracts in the euro area. On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate (“€STR”) as the new risk-free rate for the euro area. The €STR was published for the first time on 2 October 2019. Although EURIBOR has subsequently been reformed in order to comply with the terms of the Benchmark Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark.

The elimination of the EURIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest provisions of the Conditions, or result in other consequences, in respect of any Notes linked to such Benchmark (including but not limited to Floating Rate Notes whose interest rates are linked to EURIBOR which may, depending on the manner in which the EURIBOR benchmark is to be determined under the terms and conditions, result in the effective application of a fixed rate based on the rate which applied in the previous period when EURIBOR was available). Amendments to the Conditions and/or relevant fall-back provisions may be required to reflect such discontinuance and there can be no assurance that any such amendments will fully or effectively mitigate all future relevant interest rate risks. Any change in the performance of a Benchmark or its discontinuation, could have a material adverse effect on any Notes referencing or linked to such Benchmark.

Future discontinuance of EURIBOR or other benchmark rates may adversely affect the value of Floating Rate Notes which are linked to or which reference any such benchmark rate

Investors should be aware that, if a benchmark rate were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which are linked to or which reference such benchmark rate will be determined for the relevant period by the fall-back provisions applicable to such Notes.

The Conditions provide for certain fallback arrangements in the event that a published benchmark (including any page on which such benchmark may be published (or any successor service)) becomes unavailable. Such fallback arrangements will include the possibility that the relevant rate of interest (or, as applicable, component thereof) could be set or, as the case may be, determined by reference to a successor rate or an alternative rate (as applicable) determined by an Independent Adviser (as defined in the Conditions). This may result in any Notes linked to or referencing an Original Reference Rate (as defined in the Conditions) performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form. No consent or approval of the Noteholders shall be required in connection with effecting any relevant amendments to the Conditions or the Agency Agreement. Any such amendment could have unexpected commercial consequences and there can be no assurance that, due to the particular circumstances of each Noteholder, any such adjustment or amendment will be favourable to each Noteholder.

If a successor rate or alternative rate is determined, the Conditions also provide that an Adjustment Spread (as defined in the Conditions) may be determined and applied to such successor rate or alternative rate. The aim of the Adjustment Spread is to reduce or eliminate, to the extent reasonably practicable, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate. However, it may not be possible to determine or apply an Adjustment Spread and, even if an

Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Noteholders. If no Adjustment Spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. In addition, if the Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed by the Issuer fails to make a determination, the ultimate fallback of interest for the Notes may result in the rate of interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Note based on the rate which was last observed on the last relevant interest determination date. Any such consequences may, adversely affect the value of, and return on, the Floating Rate Notes.

Where ISDA Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, the Conditions provide that the Rate of Interest in respect of the Notes shall be determined by reference to, if “ISDA 2006 Definitions” are specified as being applicable in the relevant Final Terms, the relevant Floating Rate Option in the 2006 ISDA Definitions, or, if “ISDA 2021 Definitions” are specified as being applicable in the relevant Final Terms, the latest version of ISDA 2021 Interest Rate Derivatives Definitions. Where the Floating Rate Option specified is an “IBOR” Floating Rate Option, the Rate of Interest may be determined by reference to the relevant screen rate or the rate determined on the basis of quotations from certain banks. If the relevant IBOR is permanently discontinued and the relevant screen rate or quotations from banks (as applicable) are not available, the operation of these provisions may lead to uncertainty as to the Rate of Interest that would be applicable, and may, adversely affect the value of, and return on, the Floating Rate Notes.

Investors should consider all of these matters when making their investment decision with respect to the relevant Floating Rate Notes.

Notes issued with a specific use of proceeds as Green Bonds

The net proceeds of the issue of each Tranche of Notes will be used for the general corporate purposes of the Group. If, in respect of any particular issue, it is specified in the applicable Final Terms that the Notes are “**Green Bonds**”, the net proceeds of the issue will be used for the purposes of a portfolio of projects with a positive impact in terms of environmental sustainability (referred hereinafter as ‘green projects’).

Prospective investors should have regard to the information set out in the Base Prospectus regarding use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary.

No assurance is given by the Issuer or the Dealers that the use of such proceeds for any eligible green projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply whether by any present or future applicable law or regulations or by its own bylaws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental sustainability of any projects or uses the subject of or related to, any eligible green projects. There can be no assurance that the relevant project(s) or use(s) (including those the subject of, or related to, any eligible green projects) will be capable of being implemented in or substantially in the manner planned by the Issuer and/or in accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such project(s) or use(s). Nor can there be any assurance that any such projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made

available in connection with the issue of any Notes and in particular with any eligible green projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification (i) is not, nor shall be deemed to be, incorporated in and/or form part of this Base Prospectus, (ii) is not, nor should be deemed to be, a recommendation by the Issuer, the Dealers or any other person to buy, sell or hold any such Notes and (iii) would only be current as of the date that it was initially issued.

Any such event or failure to apply the proceeds of any issue of Notes for any eligible green projects, and/or the withdrawal of any opinion or certification as described above or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended by the Issuer to finance eligible green projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

A basis for the determination of the definitions of “green” has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 (the “**Sustainable Finance Taxonomy Regulation**”) on the establishment of a framework to facilitate sustainable investment (the “**EU Sustainable Finance Taxonomy**”). The EU Sustainable Finance Taxonomy is subject to further development by way of the implementation by the European Commission through delegated regulations for the 6 environmental objectives set out in the Sustainable Finance Taxonomy Regulation. While the intention is that the Group’s Eligible Green Projects would be in alignment with the relevant objectives for the EU Sustainable Finance Taxonomy, until the technical screening criteria for such objectives have been developed it is not known whether the Group’s Eligible Green Projects will satisfy those criteria.

If the terms of the Programme are modified or amended in a manner that would make the Base Prospectus, as so modified or amended, inaccurate or misleading, a new base prospectus will be prepared.

FORM OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary Global Note (a “**Temporary Global Note**”), without interest coupons, or a permanent global note (a “**Permanent Global Note**”), without interest coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is not intended to be issued in new global note (“**NGN**”) form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of Notes with a depositary or a common depositary for Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) and/or any other relevant clearing system and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether United States Treasury Regulation §1. 163-5(c)(2)(i)(C) (the “**TEFRA C Rules**”) or United States Treasury Regulation §1. 163-5(c)(2)(i)(D) (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for a Permanent Global Note

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for Definitive Notes in the limited circumstances specified in the Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U. S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U. S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and
- (ii) receipt by the Fiscal Agent of a certificate or certificates of non-U. S. beneficial ownership,

within 7 days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U. S. beneficial ownership; provided however that in no circumstances

shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”) if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 10 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules or the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U. S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U. S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specifies the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes in the limited circumstances specified in the Permanent Global Note”, then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 10 (*Events of Default*) occurs.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the

surrender of the Permanent Global Note to or to the order of the Fiscal Agent within 30 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “*Terms and Conditions of the Notes*” below and the provisions of the relevant Final Terms which complete those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under “*Summary of Provisions Relating to the Notes whilst in Global Form*” below.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than 365 days, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Notes in definitive form issued under the Programme. All capitalised terms that are not defined in these Conditions will have the meanings given to them in Part A of the relevant Final Terms. Those definitions will be endorsed on the Definitive Notes. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued pursuant to an amended and restated agency agreement (as amended or supplemented as at the Issue Date, the “**Agency Agreement**”) dated 5 May 2022 between the Issuer, The Bank of New York Mellon, London Branch as fiscal agent and the other agents named in it and with the benefit of a deed of covenant (as amended or supplemented as at the Issue Date, the “**Deed of Covenant**”) dated 5 May 2022 executed by the Issuer in relation to the Notes. The fiscal agent, the paying agents and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent) and the “**Calculation Agent(s)**”. The Noteholders (as defined below), the holders of the interest coupons (the “**Coupons**”) relating to interest bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the “**Talons**”) (the “**Couponholders**”) are deemed to have notice of all of the provisions of the Agency Agreement applicable to them. If so required by Spanish law, the Issuer will execute a public deed (*escritura pública*) (the “**Public Deed**”) before a Spanish Notary Public in relation to the Notes and will register such Public Deed with the Mercantile Registry of Madrid. The Public Deed will contain, among other information, the terms and conditions of the Notes.

Payments under the Notes have been unconditionally and irrevocably guaranteed by the Guarantor pursuant to an English law governed deed of guarantee dated 5 May 2022 unless the applicable Final Terms specify that the Notes are guaranteed pursuant to a Spanish law governed guarantee dated 5 May 2022 (the “**Spanish Law Guarantee**” and, together with the English Law Guarantee, the “**Guarantee**”).

As used in these terms and conditions (the “**Conditions**”), “**Tranche**” means Notes which are identical in all respects.

Copies of the Agency Agreement, the Deed of Covenant and the Guarantee are available for inspection during normal business hours at the specified offices of each of the Paying Agents.

1 Form, Denomination and Title

The Notes are issued in bearer form in each case in the Specified Denomination(s) shown hereon, provided that in the case of any Notes which are to be admitted to trading on a regulated market within the European Economic Area or the United Kingdom or offered to the public in a Member State of the European Economic Area or the United Kingdom in circumstances which require the publication of a prospectus under the Prospectus Regulation, the minimum Specified Denomination shall be €100,000 (or its equivalent in any other currency as at the date of issue of those Notes).

This Note is a Fixed Rate Note, a Floating Rate Note or a combination of any of the foregoing, depending upon the Interest and Redemption/Payment Basis shown hereon.

Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached. Title to the Notes, Coupons and Talons shall pass by delivery. Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it

is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

In these Conditions, “**Noteholder**” means the bearer of any Note, “**holder**” (in relation to a Note, Coupon or Talon) means the bearer of any Note, Coupon or Talon and capitalised terms have the meanings given to them hereon, the absence of any such meaning indicating that such term is not applicable to the Notes.

2 No Exchange of Notes

Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

3 Status of the Notes and Guarantee

(a) Status of the Notes

The Notes and Coupons relating to them constitute (subject to Condition 4) unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves. The payment obligations of the Issuer under the Notes and the Coupons relating to them shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Issuer, present and future.

Interest on the Notes accrued but unpaid as at the commencement of any insolvency proceeding (concurso) relating to the Issuer under Spanish law shall thereupon constitute subordinated obligations of the Issuer ranking below its unsecured and unsubordinated obligations. Under Spanish law, no further interest on the Notes shall be deemed to accrue from the date of any declaration of insolvency.

(b) Status of the Guarantee

The Guarantee constitutes (subject to Condition 4) unsecured obligations of the Guarantor. The payment obligations of the Guarantor under the Guarantee shall, save for such exceptions as may be provided by applicable legislation and subject to Condition 4, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Guarantor, present and future.

- (A) before or at the same time as the creation of the Security Interest, any and all action necessary shall have been taken to ensure that:
 - (i) all amounts payable by the Issuer under the Notes are secured equally and rateably with the Relevant Indebtedness or guarantee or indemnity, as the case may be; or
 - (ii) such other Security Interest or guarantee or other arrangement (whether or not including the giving of a Security Interest) is provided in respect of all amounts

payable by the Issuer under the Notes as shall be approved at a meeting of Noteholders (in accordance with Condition 11); or

- (B) the Security Interest is to secure any Relevant Indebtedness (or any guarantee or indemnity in respect of such Relevant Indebtedness) of a Principal Subsidiary, being an entity that became a Subsidiary after the Issue Date, so long as:
- (i) such Security Interest was outstanding on the date on which such Principal Subsidiary became a Subsidiary and was not created in contemplation of such Principal Subsidiary becoming a Subsidiary or such Security Interest was created in substitution for or to replace either such outstanding Security Interest or any such substituted or replacement Security Interest; and
 - (ii) the principal amount of the Relevant Indebtedness (or any guarantee or indemnity in respect of such Relevant Indebtedness) is not increased after the date that such Principal Subsidiary became a Subsidiary.

5 Interest and other Calculations

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 5(e).

(b) Interest on Floating Rate Notes

- (i) **Interest Payment Dates:** Each Floating Rate Note bears interest on its outstanding nominal amount from and including the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. The amount of interest payable shall be determined in accordance with Condition 5(e). Such Interest Payment Date(s) is/are either shown hereon as Specified Interest Payment Dates or, if no Specified Interest Payment Date(s) is/are shown hereon, Interest Payment Date shall mean each date which falls the number of months or other period shown hereon as the Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.
- (ii) **Business Day Convention:** If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date

shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

- (iii) Rate of Interest for Floating Rate Notes: The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified hereon and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified hereon.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating (i) if “2006 ISDA Definitions” is specified hereon as being applicable, the 2006 ISDA Definitions (as supplemented, amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series) as published by the International Swaps and Derivatives Association, Inc. “**ISDA**”) (copies of which may be obtained from ISDA on its website (<http://www.isda.org>); or (ii) if “ISDA 2021 Definitions” are specified hereon as being applicable, the latest version of the ISDA 2021 Interest Rate Derivatives Definitions, including each Matrix (as defined therein) (and any successor thereto), as published by ISDA on its website (<http://www.isda.org>) on the date of issue of the first Tranche of the Notes of such Series, and under which:

- (x) the Floating Rate Option is as specified hereon;
- (y) the Designated Maturity is a period specified hereon; and
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified hereon.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

Unless otherwise specified hereon, the Notes will be subject to a Minimum Rate of Interest of zero.

(B) Screen Rate Determination for Floating Rate Notes

- (x) Where Screen Rate Determination is specified hereon as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:
- (1) the offered quotation; or
 - (2) the arithmetic mean of the offered quotations,
- (expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either 11.00 a.m. (Brussels time in the case of EURIBOR) on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.
- (y) if the Relevant Screen Page is not available or, if sub-paragraph (x)(1) applies and no such offered quotation appears on the Relevant Screen Page, or, if sub-paragraph (x)(2) applies and fewer than three such offered quotations appear on the Relevant Screen Page, in each case as at the time specified above, subject as provided below, the Calculation Agent shall request, if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks, to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately 11.00 a.m. (Brussels time) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Accrual Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and
- (z) if paragraph (y) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks, if the Reference Rate is EURIBOR, in the Euro-zone inter-bank market, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time), on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to, if the Reference Rate is EURIBOR, leading banks in the Euro-zone inter-bank market, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at

the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

Unless otherwise specified hereon, the Notes will be subject to a Minimum Rate of Interest of zero.

(c) Accrual of Interest

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (both before and after judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8).

(d) Margin, Maximum/Minimum Rates of Interest and Redemption Amounts and Rounding

- (i) If any Margin is specified hereon (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Condition 5(b) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest or Redemption Amount is specified hereon, then any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be; or (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 of a percentage point being rounded up), (y) all figures shall be rounded to seven significant figures (with 0.000005 of a percentage point being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the countries of such currency.

(e) Calculations

The amount of interest payable per Calculation Amount in respect of any Note for any Interest Accrual Period shall be equal to the product of the Rate of Interest, the Calculation Amount specified hereon, and the Day Count Fraction for such Interest Accrual Period, unless an Interest Amount (or a formula for its calculation) is applicable to such Interest Accrual Period, in which case the amount of interest payable per Calculation Amount in respect of such Note for such Interest Accrual Period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable per Calculation Amount in respect of such Interest Period shall be the sum of the Interest Amounts payable in respect of each of those Interest Accrual Periods. In respect of any other period for which interest is required to be

calculated, the provisions above shall apply save that the Day Count Fraction shall be for the period for which interest is required to be calculated.

(f) *Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts and Change of Control Redemption Amounts*

The Calculation Agent shall, as soon as practicable on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, determine such rate and calculate the Interest Amounts for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Change of Control Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Accrual Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Change of Control Redemption Amount to be notified to the Fiscal Agent, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

(g) *Definitions*

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

“**Business Day**” means:

- (i) in the case of a currency other than euro, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the principal financial centre for such currency; and/or

- (vii) if “**30E/360 (ISDA)**” is specified hereon, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

(i) Calculation Agent

The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them hereon and for so long as any Note is outstanding. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Accrual Period or to calculate any Interest Amount, Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Change of Control Redemption Amount, as the case may be, or to comply with any other requirement, the Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(j) *Benchmark discontinuation*

- (i) If a Benchmark Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the Issuer shall use its reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine a Successor Rate, or, if a Successor Rate is not available, an Alternative Rate (in accordance with Condition 5(j)(ii)) and, in either case, an Adjustment Spread, if any (in accordance with Condition 5(j)(iii)), and any Benchmark Amendments (in accordance with Condition 5(j)(iv)).

If the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser appointed by the Issuer fails to determine a Successor Rate or an Alternative Rate in accordance with this Condition 5(j)(i) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Reference Rate shall be the Reference Rate applicable to the first Interest Period. Where a different Margin (if any) or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin (if any) or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin (if any) or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, any adjustment under this sub-paragraph shall apply to the immediately following Interest Period only. Any subsequent Interest Period is subject to the subsequent operation of, and to adjustment as provided in, this Condition 5(j).

An Independent Adviser appointed pursuant to this Condition 5(j) shall act in good faith and in a commercially reasonable manner, as an expert. In the absence of wilful misconduct or gross negligence, the Independent Adviser shall have no liability whatsoever to the Issuer, the Guarantor, the Fiscal Agent, any Paying Agent, the Calculation Agent, the Noteholders or the Couponholders for any determination made in connection with any determination made by the Independent Adviser pursuant to this Condition 5(j).

- (ii) If the Independent Adviser determines that:
- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5(j)(iii)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(j)); or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5(j)(iii)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the operation of this Condition 5(j)).

- (iii) If the Independent Adviser determines in its discretion that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall apply to the Successor Rate or the Alternative Rate (as the case may be).
- (iv) If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5(j) and the Independent Adviser determines (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the “**Benchmark Amendments**”) and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(j)(v), without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice. The Fiscal Agent shall, at the direction and expense of the Issuer, consent to and effect such consequential amendments to the Agency Agreement and these Conditions as may be required in order to give effect to this Condition 5(j).

In connection with any such variation in accordance with this Condition 5(j)(iv), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

- (v) Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(j) shall be notified promptly by the Issuer to the Fiscal Agent, each Paying Agent, the Calculation Agent and, in accordance with Condition 14, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.
- (vi) Without prejudice to the obligations of the Issuer, as the case may be, under Condition 5(j)(i), (ii), (iii) and (iv), the Original Reference Rate and the fallback provisions provided for in Condition 5(b) will continue to apply unless and until a Benchmark Event has occurred and the Calculation Agent has been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread (if applicable) and Benchmark Amendments, in accordance with Condition 5(j)(v).
- (vii) As used in this condition 5(j):

“**Adjustment Spread**” means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended or formally provided as an option for the parties to adopt in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (B) (if no such recommendation has been made, or in the case of an Alternative Rate), the Independent Adviser, determines is customarily applied to the relevant Successor Rate or Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (C) (if the Independent Adviser determines that there is no such customarily applied interest rate), the Independent Adviser determines to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Original Reference Rate with the Successor Rate or Alternative Rate (as the case may be).

“**Alternative Rate**” means an alternative to the Reference Rate which the Independent Adviser determines, in accordance with Condition 5(j)(ii), that has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and the Specified Currency.

“**Benchmark Amendments**” has the meaning given to it in Condition 5(j)(iv).

“**Benchmark Event**” means:

- (A) the Original Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (B) a public statement by the administrator of the Original Reference Rate that it will, by a specified date within the following six months, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (C) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been or will, by a specified date within the following six months, be permanently or indefinitely discontinued; or
- (D) a public statement by the supervisor of the administrator of the Original Reference Rate, the effect of which means that the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case within the following six months; or

- (E) a public statement made by the supervisor of the administrator of the Original Reference Rate announcing that the Original Reference Rate is (i) no longer representative of any underlying market; or (ii) the methodology to calculate such Original Reference Rate has materially changed; or
- (F) it has become unlawful or otherwise prohibited for the Fiscal Agent, any Paying Agent, the Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Noteholder using the Original Reference Rate or otherwise make use of the Original Reference Rate with respect to the Notes.

“Independent Adviser” means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer under Condition 5(j)(i).

The Early Redemption Amount payable in respect of any Note, upon redemption of such Note pursuant to Condition 6(c), Condition 6(d), Condition 6(e), Condition 6(f), Condition 6(g) or Condition 6(h) or upon it becoming due and payable as provided in Condition 10, shall be the Final Redemption Amount unless otherwise specified hereon.

(c) *Redemption for Taxation Reasons*

The Notes may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date (if this Note is a Floating Rate Note) or, at any time, (if this Note is not a Floating Rate Note), on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (as described in Condition 6(b) above) (together with interest accrued to the date fixed for redemption), if (i) the Issuer (or, if a demand was made under the Guarantee, the Guarantor) has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of Spain or, in each case, any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes, and (ii) such obligation cannot be avoided by the Issuer (or the Guarantor, as appropriate) taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional amounts were a payment in respect of the Notes then due. Prior to the publication of any notice of redemption pursuant to this Condition 6(c), the Issuer shall deliver to the Fiscal Agent a certificate signed by two directors of the Issuer (or the Guarantor, if the obligation to pay additional amounts refers to it) stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such additional amounts as a result of such change or amendment.

(d) *Redemption at the Option of the Issuer (Call Option)*

- (i) If Call Option is specified hereon, the Issuer may, unless the Issuer has given notice under Condition 6(c), Condition 6(e) or Condition 6(f) to redeem the Notes or a Put Notice has been given by the Noteholder pursuant to Condition 6(g), on giving not less than 15 nor more than 30 days' irrevocable notice to the Noteholders (or such other notice period as may be specified hereon), redeem all or, if so provided, some of the Notes on any Optional Redemption Date. Any such redemption of Notes shall be at their Optional Redemption Amount specified hereon (which may be the Early Redemption Amount (as described in Condition 6(b) above)), together with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the Minimum Redemption Amount to be redeemed specified hereon and no greater than the Maximum Redemption Amount to be redeemed specified hereon. All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition 6(d).
- (ii) If "**Make-Whole Amount**" is specified in the applicable Final Terms as the Optional Redemption Amount, the Optional Redemption Amount per Note shall be the higher of:
 - (a) the nominal amount of the Note to be redeemed; or
 - (b) as determined by the Reference Dealers, the sum of the then current values of the remaining scheduled payments of principal and interest to maturity or, if Par Call Period is specified in the applicable Final Terms, to the Par Call Commencement

Date (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the Optional Redemption Date on an annual basis (based on the Day Count Fraction specified in the Final Terms) at the Reference Bond Rate (as defined below) plus the Redemption Margin,

plus, in each case, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.

As used in this Condition 6(d)(ii):

- (iii) At the Issuer's discretion, any redemption pursuant to this Condition 6(d) may be subject to one or more conditions precedent, in which case the notice of redemption shall state the applicable condition precedent(s) and that, in the Issuer's discretion, the Optional Redemption Date may be delayed until such time as any or all such conditions shall be satisfied (or waived by the Issuer in its sole discretion), or such redemption may not occur in the event that any or all such conditions shall not have been satisfied (or waived by the Issuer in its sole discretion) by the Optional Redemption Date, or by the Optional Redemption Date so delayed.
- (iv) In the case of a partial redemption, the notice to Noteholders shall also contain the certificate numbers of Notes to be redeemed, which shall have been drawn in such place as the Issuer may approve and in such manner as may be fair and reasonable in the circumstances, taking into account prevailing market practices as it deems appropriate, subject to compliance with any applicable laws and stock exchange or other relevant authority requirements.

(e) Issuer Maturity Call Option

If Issuer Maturity Call Option is specified hereon, the Issuer may, having given not less than 15 nor more than 30 days' notice (or such other notice period as specified hereon) in accordance with Condition 14 to the Noteholders (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem the Notes then outstanding in whole, but not in part, at any time during the period commencing on (and including) the day that is 90 days prior to the Maturity Date to (but excluding) the Maturity Date, at the Optional Redemption Amount

specified hereon (which may be the Early Redemption Amount (as described in Condition 6(b) above), together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

(g) Redemption at the Option of Noteholders (Put Option)

To exercise such option the holder must deposit such Note (together with all unmatured Coupons and unexchanged Talons) with any Paying Agent, together with a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent within the notice period. No Note so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

(h) Redemption or purchase at the option of Noteholders following a Change of Control (Change of Control Put Option)

If Change of Control Put Option is specified hereon, and at any time while any Note remains outstanding, a Change of Control occurs (a "**Put Event**"), the holder of each Note shall have the option (unless, prior to the giving of the Put Event Notice referred to below, the Issuer gives notice under Conditions 6(c), Condition 6(d), Condition 6(e) or Condition 6(f), to redeem the Notes) to require the Issuer to redeem or, at the option of the Issuer, purchase (or procure the purchase of) that Note on the date which is 7 days after the expiry of the Put Period (as defined below) (or such other date as may be specified hereon) (the "**Put Date**") at the Change of Control Redemption Amount specified hereon (which may be the Early Redemption Amount (as described in Condition 6(b) above)) together with (or, where purchased, together with an amount equal to) interest accrued to (but excluding) the Put Date. Such option (the "**Change of Control Put Option**") shall operate as set out below.

If a Put Event occurs then, within 14 days of the occurrence of the Put Event, the Issuer shall give notice (a "**Put Event Notice**") to the Noteholders in accordance with Condition 14 (Notices) specifying the nature of the Put Event and the procedure for exercising the Change of Control Put Option.

To exercise the Change of Control Put Option under this Condition 6(h), the holder of a Note must deposit such Note with any Paying Agent (together with all unmatured Coupons and unexchanged Talons relating thereto) on any Business Day falling within the period of 60 days after a Put Event Notice is given (the "**Put Period**"), accompanied with a duly completed put

option notice (the “**Put Option Notice**”) in the form obtainable from any Paying Agent. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 6(h), may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer.

The Issuer and any of its Subsidiaries (as defined in Condition 4) may at any time purchase Notes (provided that all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price.

(j) Cancellation

All Notes purchased by or on behalf of the Issuer or any of its Subsidiaries may be surrendered for cancellation by surrendering each such Note together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, if so surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

7 Payments and Talons

(a) Method of Payment

Payments of principal and interest in respect of Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Notes (in the case of all payments of principal and, in the case of interest, as specified in Condition 7(e)(v)) or Coupons (in the case of interest, save as specified in Condition 7(e)(v)), as the case may be, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the holder, by transfer to an account denominated in such currency with,

a Bank. “**Bank**” means a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET System.

(b) Payments in the United States

Notwithstanding the foregoing, if any Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

(c) Payments Subject to Laws

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment, but without prejudice to the provisions of Condition 8. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.

(d) Appointment of Agents

The Fiscal Agent, the Paying Agents and the Calculation Agent initially appointed and their respective specified offices are listed below. The Fiscal Agent, the Paying Agents and the Calculation Agent(s) act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Noteholder or Couponholder. The Issuer reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) Paying Agents having specified offices in at least two major European cities, and (iv) such other agents as may be required by any other stock exchange on which the Notes may be listed.

Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing

Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 9).

- (ii) Upon the due date for redemption of any Note comprising a Floating Rate Note, unmatured Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Note that provides that the relative unmatured Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons, and where any Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.
- (v) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Note representing it, as the case may be. Interest accrued on a Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note representing it, as the case may be.

(f) Talons

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 9).

(g) Non-Business Days

If any date for payment in respect of any Note or Coupon is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “**business day**” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the relevant place of presentation, in such jurisdictions as shall be specified as “**Financial Centres**” hereon and:

- (i) (in the case of a payment in a currency other than euro) where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency; or
- (ii) (in the case of a payment in euro) which is a TARGET Business Day.

8 Taxation

All payments of principal and interest by or on behalf of the Issuer in respect of the Notes and the Coupons or the Guarantor in respect of the Guarantee (as the case may be) shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges

of whatever nature imposed, levied, collected, withheld or assessed by or within Spain or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer (or the Guarantor, as the case may be) shall pay such additional amounts as shall result in receipt by the Noteholders and the Couponholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (A) to, or to a third party on behalf of, a holder who is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of his having some connection with Spain other than the mere holding of the Note or Coupon;
- (B) presented for payment more than 30 days after the Relevant Date except to the extent that the holder of such Note or Coupon would have been entitled to such additional amounts on presenting it for payment on the expiry of such period of 30 days;
- (C) to, or to a third party on behalf of, a holder if the Issuer (or the Guarantor, as the case may be) does not receive any relevant information as may be required by Spanish tax law, regulation or binding ruling or in case the current information procedures are modified, amended or supplemented by any Spanish law, regulation or a binding ruling;
- (D) to, or to a third party on behalf of, a Spanish resident legal entity subject to Spanish Corporate Income Tax, if the Spanish tax authorities determine that the Notes do not comply with the exemption requirements specified in the General Directorate for Taxation's ruling of 27 July 2004 and require a withholding to be made; or
- (E) to, or to a third party on behalf of, a holder who would have been able to avoid such deduction or withholding by presenting a certificate of tax residence and/or such other document evidencing its tax residence required by the competent authorities.

Notwithstanding any other provision of these Conditions, any amounts to be paid in respect of the Notes and the Coupons by or on behalf of the Issuer or the Guarantor will be paid net on any deduction or withholding imposed or required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or official interpretations thereof) or an intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any fiscal or regulatory legislation, rules or practices implementing such an intergovernmental agreement) (any such withholding or deduction, a “**FATCA Withholding**”). Neither the Issuer, the Guarantor nor any other person will be required to pay any additional amounts in respect of FATCA Withholding.

As used in these Conditions, “**Relevant Date**” in respect of any Note or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) “principal” shall be deemed to include any premium payable in respect of the Notes, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Change of Control Redemption Amounts and all other amounts in the nature of principal payable pursuant to Condition 6 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 5 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any additional

amounts that may be payable under this Condition.

Claims against the Issuer for payment in respect of the Notes and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

(a) Meeting of Noteholders

The Agency Agreement contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Agency Agreement) of a modification of any of these Conditions and the Deed of Covenant insofar as the same may apply to such Notes. Such a meeting may be convened by Noteholders holding not less than 10 per cent. in nominal amount of the Notes for the time

being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the nominal amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes or any date for payment of interest or Interest Amounts on the Notes, (ii) to reduce or cancel the nominal amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount in respect of the Notes, (iv) if a Minimum and/or a Maximum Rate of Interest or Redemption Amount is shown hereon, to reduce any such Minimum and/or Maximum, (v) to vary any method of, or basis for, calculating the Final Redemption Amount, the Early Redemption Amount, the Optional Redemption Amount or the Change of Control Redemption Amount, (vi) to vary the currency or currencies of payment or denomination of the Notes, (vii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, (viii) to modify or cancel the Guarantee, (ix) to modify the Deed of Covenant or (x) to modify this provision, in which case the necessary quorum shall be one or more persons holding or representing not less than 75 per cent. or at any adjourned meeting not less than 25 per cent. in nominal amount of the Notes for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Noteholders (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

(b) Modification of Agency Agreement

The Issuer shall only permit any modification of, or any waiver or authorisation of any breach or proposed breach of or any failure to comply with, the Agency Agreement, if to do so could not reasonably be expected to be prejudicial to the interests of the Noteholders.

(c) Notification to the Noteholders

Any modification, waiver or authorisation in accordance with this Condition 11 shall be binding on the Noteholders and the Couponholders and shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 14.

(d) Substitution

Each of the Guarantor or any of its Subsidiaries (each a “**Substitute Obligor**”) may, without the consent of the holders of any Notes or Coupons, assume the obligations of the Issuer (or any previous Substitute Obligor) under and in respect of any Notes upon:

- (A) the execution of a deed poll (the “**Deed Poll**”) by the Substitute Obligor and (if the Substitute Obligor is not the Guarantor) the Guarantor in a form which gives full effect to such assumption and which includes (without limitation):

- (i) a covenant by the Substitute Obligor in favour of the holders of the Notes to be bound by these Conditions, the Notes, the Coupons, the Deed of Covenant and the Agency Agreement, with any consequential amendments, as if it had been named herein and therein as the principal debtor in place of the Issuer, and such other deeds, documents and instruments (if any) in order for the substitution to be fully effective and for the Substitute Obligor to be bound by all of the Issuer's obligations;
 - (ii) a warranty and representation (A) that the Substituted Obligor has obtained all necessary governmental and regulatory approvals and consents necessary for such substitution and for the performance by the Substituted Obligor of its obligations under the Deed Poll and under any other documents required to give full effect to the substitution, (B) that all such approvals and consents are in full force and effect, and (C) that the obligations assumed by the Substituted Obligor are valid and binding in accordance with their respective terms and enforceable by each Noteholder; and
 - (iii) a covenant by the Substitute Obligor and (if the Substitute Obligor is not the Guarantor) the Guarantor, to indemnify and hold harmless each holder against all taxes or duties which arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective, which may be incurred or levied against such holder as a result of any substitution pursuant to this Condition 11(d) and which would not have been so incurred or levied had such substitution not been made (and, without limiting the generality of the foregoing, any and all taxes or duties which are imposed on any such holder by any political subdivision or taxing authority of any country in which such holder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made); and
 - (iv) an acknowledgment of the right of all Noteholders to the production of the Deed Poll;
- (B) if the Substitute Obligor is not the Guarantor, the execution of deeds of guarantee (the “**Substitute Guarantee**” hereinafter for the purpose of this Condition 11(d) only) by the Guarantor on substantially the same terms as the Guarantee pursuant to which it undertakes to guarantee the performance of the obligations of the Substitute Obligor under the Deed Poll, the Conditions of the Notes and any other documents required to give full effect to the substitution;
- (C) the delivery by the Issuer of an opinion of independent legal advisers of recognised standing addressed to the Noteholders (care of the Fiscal Agent) to the effect that:
- (i) the Deed Poll constitutes legal, valid, binding and enforceable obligations of the Substitute Obligor and, if the Substitute Obligor is not the Guarantor, the Guarantor;
 - (ii) the Notes constitute legal, valid, binding and enforceable obligations of the Substitute Obligor; and
 - (iii) if the Substitute Obligor is not the Guarantor, the Substitute Guarantee constitutes legal, valid, binding and enforceable obligations of the Guarantor

in respect of all sums from time to time payable by the Substitute Obligor in respect of the Notes;

- (D) where the Substitute Obligor is subject to a different taxing jurisdiction (the “**Substituted Territory**”) than that to which the Issuer is subject generally (the “**Issuer's Territory**”), the Substituted Obligor will give an undertaking in terms corresponding to Condition 8 with the substitution for the reference in that Condition to the Issuer's Territory of references to the Substituted Territory;
- (E) not later than fourteen days after the execution of any such documents as aforesaid in paragraph (a), the Substituted Obligor shall cause notice thereof to be given to the Noteholders; and
- (F) upon the execution of such documents and compliance with the requirements stated in this Condition 11(d), the Substituted Obligor will be deemed to be named in these Conditions, the Notes and Coupons as if it had been named herein and therein as the principal debtor in place of the Issuer (or of any previous substitute under this Condition 11(d) and the Notes and the Coupons will be deemed to be amended in such manner as necessary to give effect to the substitution and any references in the Notes and Coupons to the Issuer will be references to the Substituted Obligor.

12 Replacement of Notes, Coupons and Talons

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Fiscal Agent upon payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, inter alia, that if the allegedly lost, stolen or destroyed Note, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Coupons or further Coupons) and otherwise as the Issuer or the Fiscal Agent may require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

13 Further Issues

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes having the same terms and conditions as the Notes (in all respects except for the first payment of interest thereon) and so that the same shall be consolidated and form a single series with such Notes, and references in these Conditions to “**Notes**” shall be construed accordingly.

14 Notices

Notices to the holders of Notes shall be valid if published in a daily newspaper of general circulation in London (which is expected to be the Financial Times). The Issuer shall also ensure that all notices are duly published in a manner which complies with the rules and regulations of any stock exchange, multi-lateral trading facility or other relevant authority on which the Notes are for the time being listed and/or admitted to trading and, for so long as the Notes are admitted to trading in the regulated market of Euronext Dublin, in accordance with its rules and regulations.

Any such notice shall be deemed to have been given on the date of such publication or, if published more than once, on the first date on which publication is made. If publication as provided above is not practicable, notice will be given in such other manner, and shall be deemed to have been given on such date, as the Fiscal Agent may approve.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders.

Notwithstanding the above, for so long as all the Notes are represented by a Global Note and the Global Note is held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear or Clearstream, Luxembourg and such notices shall be deemed to have been given to Noteholders on the day of delivery to Euroclear and/or Clearstream, Luxembourg.

15 Currency Indemnity

Any amount received or recovered in a currency other than the currency in which payment under the relevant Note or Coupon is due (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in the insolvency, winding-up or dissolution of the Issuer or otherwise) by any Noteholder or Couponholder in respect of any sum expressed to be due to it from the Issuer shall only constitute a discharge to the Issuer to the extent of the amount in the currency of payment under the relevant Note or Coupon that the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If the amount received or recovered is less than the amount expressed to be due to the recipient under any Note or Coupon, the Issuer shall indemnify it against any loss sustained by it as a result. In any event, the Issuer shall indemnify the recipient against the cost of making any such purchase. For the purposes of this Condition, it shall be sufficient for the Noteholder or Couponholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder or Couponholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note or Coupon or any other judgment or order.

16 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

17 Governing Law and Jurisdiction

(a) Governing Law:

Save as described below, the Agency Agreement, the Deed of Covenant, the English Law Guarantee and the Notes, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law. Condition 3 and the Spanish Law Guarantee are governed by, and shall be construed in accordance with, Spanish law.

(b) Jurisdiction:

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Coupons or Talons (“**Proceedings**”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission

is made for the benefit of each of the holders of the Notes, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) *Service of Process:*

The Issuer irrevocably appoints Bestinver London Office, at its office at 15 Grosvenor Gardens, Second Floor (City of Westminster) London SW1W 0BD, United Kingdom as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not, it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify Noteholders of such appointment in accordance with Condition 14. Nothing shall affect the right to serve process in any manner permitted by law.

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILST IN GLOBAL FORM

The following provisions apply to the Notes whilst they are in global form, some of which modify the effect of the Conditions.

Clearing system accountholders

Each Global Note will be in bearer form. Consequently, in relation to any Tranche of Notes represented by a Global Note, references in the Conditions of the Notes to “Noteholder” are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary, in the case of a CGN, or a common safekeeper, in the case of an NGN for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or, as the case may be, common safekeeper.

Each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an “**Accountholder**”) must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes and such obligations of the Issuer will be discharged by payment to the bearer of the Global Note.

Amendment to Conditions

Each Global Note will contain provisions which modify the Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Global Note to or to the order of any Paying Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Global Note, the Issuer shall procure that in respect of a CGN the payment is noted in a schedule thereto and in respect of an NGN the payment is entered pro rata in the records of Euroclear and Clearstream, Luxembourg.

Payment Business Day: In the case of a Global Note, shall be: if the currency of payment is euro, any day which is a TARGET Settlement Day and a day on which dealings in foreign currencies may be carried on in each (if any) Additional Financial Centre; or, if the currency of payment is not euro, any day which is a day on which dealings in foreign currencies may be carried on in the Principal Financial Centre of the currency of payment and in each (if any) Additional Financial Centre.

Exercise of put option: In order to exercise the option contained in Condition 6(g) (*Redemption at the Option of Noteholders (Put Option)*) and Condition 6(h) (*Redemption or purchase at the option of Noteholders following a Change of Control (Change of Control Put Option)*) the bearer of the Permanent Global Note must, within the period specified in the Conditions for the deposit of the relevant Note and put notice, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised. Any such notice will be irrevocable and may not be withdrawn.

Partial exercise of call option: In connection with an exercise of the option contained in Condition 6(d)

(Redemption at the Option of the Issuer (Call Option)) in relation to some only of the Notes, the Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the Conditions and the Notes to be redeemed will not be selected as provided in the Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

Meetings: The holder of a permanent Global Note shall (unless such permanent Global Note represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, as having one vote in respect of each integral currency unit of the Specified Currency of the Notes.

Notices: So long as any Notes are represented by a Global Note and such Global Note is held on behalf of a clearing system, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note, except that, for so long as such Notes are admitted to trading in the regulated market of Euronext Dublin all notices shall be published in a manner which complies with its rules and regulations.

USE OF PROCEEDS

Sustainability

Sustainability Master Plan 2021 – 2025

Since 2009, the Guarantor has had a sustainability committee within its board of directors, responsible for approving the objectives of the sustainability master plan and monitoring the progress of these practices. In 2021 this committee merged with the Audit Committee to create the Audit and Sustainability Committee that supports the Board members in the supervision of accounting, financial and non-financial information, the best practices in sustainability, internal and external audit services and risk management.

In 2021, Acciona Group became the first Spanish energy company to join the Climate Pledge (TCP), which pledge to be carbon neutral by 2040, ten years before the date established in the Paris Agreement. Furthermore, the company reduces its CO₂ generated in line with science prescriptions and offsets all the remaining emissions in line with the needs established by science to keep the increase in global temperature below 1.5°C. These are targets approved by the Science Based Targets initiative.

Since 2010, Acciona Group's sustainability strategy has been based on five-year Sustainability Master Plans (SMPs). The actions and targets contained in these plans are promoted, approved, and supervised by the Board of Director's Audit and Sustainability Committee.

The purpose of the new sustainability master plan 2025 (the "**SMP 2025**") is to encourage the Group to re-imagine infrastructures. Acciona Group invests in, develops and operates infrastructure assets that can make our planet sustainable. In short, making the company a recognised leader in developing basic infrastructure assets with an added value, with people and the planet in mind; in a word, regenerative.

The process of drawing up the SMP 2025 was carried out throughout 2020 and culminated in the first quarter of 2021 with approval of the strategy and the objectives by the Board of Directors' sustainability committee. It has been developed through the exponential sustainability leaders programme, which involves a group of international professionals from the different business units working in a process of co-creation.

It is structured around strategic and operational objectives applicable to the entire organisation with specifications for the different lines of business. It covers the following areas: people centric, positive planet, exponential leadership, and integrate to transform.

The Guarantor's ambition with the SMP 2025 is to increase investment and double its impact. Each of the four pillars of the SMP 2025 has various areas of action and an established route that includes activities ranging from responsible to resilient, adopting the ones that contribute a regenerative impact.

The achievement of SMP 2025 targets is linked to a percentage of the bonuses received by directors, managers and other staff of Acciona Group.

Green Financing Framework

Adherence to the EU Green Bond Standard and Green Bond Principles

In 2019, the Group developed a new Green Financing Framework (the “**2019 Green Financing Framework**”) that expands the portfolio of eligible green projects based on the contribution of the company to a low carbon economy. The 2019 Green Financing Framework is consistent with the EU Green Bond Standard (EU-GBS) produced by the EU Technical Expert Group (TEG) on Sustainable Finance (June 2019). All green financing transactions of the Group are carried out under the Green Financing Framework.

The 2019 Green Financing Framework was reviewed by Sustainalytics, a reputed sustainability rating agency, which issued a Second-party pinion in November 2019 (the “**Sustainalytics Second-party Opinion**”) confirming the alignment of the 2019 Green Financing Framework of the Group with the most recognised market practices: the Green Bond Principles (“**GBP**”) published by the International Capital Markets Association (ICMA), and the Green Loan Principles (“**GLP**”) administered by the Loan Market Association (LMA).

The 2019 Green Financing Framework and the Sustainalytics Second-party Opinion (together with any amendment or supplement thereof and future Green Financing Framework or Second-party Opinion) will be available for inspection in the Sustainable Finance and Debt Issuances sections of the Group’s website, at www.acciona.com.

Identification of projects

All projects that are financed and/or refinanced with proceeds from green financing instruments are selected by the Group’s Sustainable Finance Committee (the “**Committee**”) and are evaluated on a quarterly basis. This Committee comprises professionals from the Group’s finance and sustainability departments as well as sustainability representatives from the business lines of the Group, project managers and other selected experts. The Committee is responsible for verifying compliance by all projects with the eligibility criteria based on contribution by the Group’s green projects to the environmental objectives contemplated in the EU Sustainable Finance Taxonomy. Furthermore, the Group classifies and provide assurance to its activities in accordance to the criteria established by the EU Sustainable Finance Taxonomy.

The Sustainalytics Second-party Opinion provides that the eligible use of proceeds categories outlined in the Framework – (i) electricity supply (ii) transportation and storage (iii) water, sewage, waste management and remediation and (iv) construction and real estate activities – are viewed by Sustainalytics as credible, impactful and aligned with the GBP 2018 and GLP 2018.

Verification of use of proceeds (post-issuance)

Once a year the Group obtains a verification from an external auditor of a management statement on the allocation and impact of the proceeds from green financing instruments to the eligible green project portfolio. In 2021 it was issued by KPMG Asesores, S.L.

Litigation

Members of the Group are engaged in litigation in several jurisdictions arising in the ordinary course of business and otherwise, most notably, tax claims, claims relating to defects in construction projects and differences regarding services rendered. The Group records provisions in its consolidated balance sheet to cover liabilities whenever it is considered that an adverse outcome is more likely than not. Provisions are quantified on the basis of the information available and legal advice and are used to cater for the specific obligations for which they were originally recognised. As of 31 December 2021, provisions for legal

contingencies amounted to €26 million (€13 million as of 31 December 2020) corresponding to Acciona Infrastructure in relation to several lawsuits brought against the Group in various jurisdictions.

For a discussion on provisions and litigation, see Note 19 of the English translation of the audited consolidated annual accounts of the Guarantor for the financial year ended 31 December 2021 incorporated by reference in this Base Prospectus (see “*Documents incorporated by reference*”) and “*Risk factors – Risks in relation to the business of Acciona Group – Risks in relation to legal and arbitration proceedings*”).

The following is a summary of certain legal proceedings affecting the Group.

Ruta 160

Acciona Construcción S.A. and one of its subsidiaries in Chile were defendants and counterclaimants in an arbitration proceeding initiated by Sociedad Concesionaria Autopista Costa Arauco, S.A. for breach of contract and damages in relation to construction works performed by subsidiaries in Chile of Acciona Construcción, S.A. in an infrastructure project in said country. The claimants sought EUR 128 million in damages. An additional arbitration was initiated in September 2021 by the buyers of Sociedad Concesionaria Autopista Costa Arauco, S.A. (which acquired this company in 2017) against Acciona Construcción S.A. and the same subsidiary in Chile, for alleged breach of contract and damages in relation to the purchase of Sociedad Concesionaria Autopista Costa Arauco, S.A. from Acciona Construcción S.A. Agencia Chile and Acciona Concesiones Chile Ltda.

All parties in these two arbitration proceedings reached a global agreement on all their existing disputes in March 2022 and have put an end to the aforementioned arbitration proceedings. The proceedings have thus been closed and no longer affect the Group.

Radial 2

The Guarantor, Acciona Construcción, S.A. and other companies from different construction groups in Spain are defendants in an action initiated in 2019 by Titulización de Activos, Sociedad Gestora de Fondos de Titulización, S.A., TDA 2015-1 Fondo de Titulización, TDA 2017-2 Fondo de Titulización, Bothar Fondo de Titulización y Kommunalcredit Austria, AG as claimants. In this action the claimants seek (i) a declaration that the defendants are in breach of contract by failing to contribute funds to the borrower that provided funds for the financing, construction, maintenance and operation of an infrastructure project in Spain including the R-2 toll highway from Madrid to Guadalajara, the M-50 ring road and the N-II to N-I subsection; and (ii) damages (the Group’s share is 25%, i.e. claimants seek from the Group approximately EUR 142 million).

The Group believes that the arguments of the defendants are solid enough to obtain a ruling dismissing the claim. However, subject to the logical uncertainty derived from the decision-making by the Court, if a negative ruling is awarded, the Group expects it not to be material.

- (d) for individuals and entities who are not resident for tax purposes in Spain which are Non-Resident Income Tax (“**NRIT**”) taxpayers, Royal Legislative Decree 5/2004, of 5 March, promulgating the Consolidated Text of the NRIT Law (the “**NRIT Law**”), as amended and Royal Decree 1776/2004, of

30 July, promulgating the NRIT Regulations, as amended along with the Wealth Tax Law as amended and Law 29/1987, of 18 December, on Inheritance and Gift Tax, as amended.

Whatever the nature and residence of the Noteholder, the acquisition and transfer of the Notes will be exempt from indirect taxes in Spain, for example, exempt from Transfer Tax and Stamp Duty, in accordance with the consolidated text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September, and exempt from Value Added Tax, in accordance with Law 37/1992, of 28 December, regulating such tax.

2 Spanish tax resident individuals

2.1 Personal Income Tax (*Impuesto sobre la Renta de las Personas Físicas*)

Both interest periodically received and income deriving from the transfer of the Notes constitute a return on investment obtained from the transfer of own capital to third parties in accordance with the provisions of Section 25.2 of the PIT Law, and must be included in the PIT savings taxable base of each investor and taxed currently at 19 per cent. for taxable income up to €6,000; 21 per cent. for taxable income between €6,000.01 and €50,000; 23 per cent. for taxable income between €50,000.01 and €200,000; and 26 per cent. for taxable income exceeding €200,000.

As a general rule, both types of income may be subject to the corresponding withholding tax on account of Spanish PIT, at the applicable tax rate (currently 19 per cent.). However, Article 44 of Royal Decree 1065/2007, as amended by Royal Decree 1145/2011, establishes information procedures applicable to debt instruments issued under Law 10/2014 (which do not require identification of the Noteholders) under which interest payments will be paid by the Issuer to the Fiscal Agent free of withholding tax, provided that such information procedures are complied with, as described in “*Disclosure Obligations in connection with payments on the Notes*”.

However, regarding the interpretation of Royal Decree 1145/2011, please refer to “*Risk Factors – Risks relating to withholding – Risks in relation to Spanish Taxation*”.

Nevertheless, withholding tax at the applicable rate (currently 19 per cent.) may have to be deducted by other entities (such as depositaries or financial entities), provided that such entities are resident for tax purposes in Spain or have a permanent establishment in Spanish territory.

Amounts withheld, if any, may be credited by the relevant investors against their final PIT liability.

2.2 Wealth Tax (*Impuesto sobre el Patrimonio*)

Individuals with tax residency in Spain will be subject to Wealth Tax, to the extent that their net worth exceeds €700,000, at the applicable rates ranging between 0.2% and 3.5%, without prejudice to any relevant exemption which may apply and the relevant laws and regulations in force in each autonomous region of Spain. Therefore, they should take into account the value of the Notes which they hold as of December 31.

2.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Notes by inheritance, gift or legacy will be subject to the Inheritance and Gift Tax in accordance with the applicable Spanish regional or State rules (subject to any regional tax exemptions being available to them). The applicable effective tax rates currently range between 0 per cent. and 81.6 per cent. (subject to any specific regional rules), depending on relevant factors.

3 Spanish tax resident legal entities

3.1 Corporate Income Tax (*Impuesto sobre Sociedades*)

Both interest periodically received and income deriving from the transfer of the Notes must be included as taxable income of Spanish tax resident legal entities for CIT purposes in accordance with the rules for this tax, being typically subject to the standard rate of 25 per cent., with lower or higher rates applicable to certain categories of taxpayers.

According to Article 44 of Royal Decree 1065/2007, as amended by Royal Decree 1145/2011, the Issuer is not obliged to withhold any tax amount on interest payments made under the Notes provided that the new simplified information procedures (which do not require identification of the Noteholders) are complied with by the Fiscal Agent, as described in section “Disclosure Obligations in connection with Payments on the Notes”.

However, regarding the interpretation of Royal Decree 1145/2011, please refer to “*Risk Factors – Risks relating to withholding – Risks in relation to Spanish Taxation*”.

Income derived from the transfer of the Notes shall not be subject to withholding tax as provided by Section 61(s) of the Corporate Income Tax Regulations, to the extent that the Notes satisfy the requirements laid down by the reply to the Directorate General for Taxation’s (*Dirección General de Tributos*) consultation, on 27 July 2004, indicating that in the case of issuances made by entities with tax residency in Spain (as in the case of each of the Issuers), application of the exemption requires that the Notes be placed outside Spain in another OECD country and traded on organised markets in OECD countries.

Amounts withheld, if any, may be credited by the relevant investors against their final CIT liability

3.2 Wealth Tax (*Impuesto sobre el Patrimonio*)

Legal entities are not subject to Wealth Tax.

3.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Legal entities resident in Spain for tax purposes which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to the Inheritance and Gift Tax but must include the market value of the Notes in their taxable income for Spanish CIT purposes.

4 Individuals and legal entities tax resident outside Spain

4.1 Non-Resident Income Tax (*Impuesto sobre la Renta de No Residentes*)

(A) Acting through a permanent establishment in Spain

Ownership of the Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes shall be, generally, the same as those previously set out for Spanish CIT taxpayers.

(B) Not acting through a permanent establishment in Spain

Both interest payments periodically received and income deriving from the transfer, redemption or repayment of the Notes, obtained by individuals or entities who are not resident in Spain for tax

purposes, and who are NRIT taxpayers with no permanent establishment in Spain, are exempt from NRIT, on the same terms laid down for income from public debt.

In order for the exemption to apply, it is necessary to comply with certain information obligations relating to the Notes, in the manner detailed below under “*Disclosure obligations in connection with payments on the Notes*” as laid down in Article 44 of Royal Decree 1065/2007, as amended by Royal Decree 1145/2011. If these information obligations are not complied with in the manner indicated, the Issuer will withhold 19 per cent. and the Issuer will not pay additional amounts.

Non-Resident investors entitled to the exemption from NRIT but where the Issuer does not timely receive the information about the Notes in accordance with the procedure described in detail below under “*Disclosure obligations in connection with payments on the Notes*” would have to apply directly to the Spanish tax authorities for any refund to which they may be entitled, according to the procedures set forth in the Spanish NRIT Law.

4.2 Wealth Tax (*Impuesto sobre el Patrimonio*)

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to the Wealth Tax will not be generally subject to such tax on the Notes. Otherwise, under current Wealth Tax Law, non-Spanish resident individuals whose Spanish properties and rights are located in Spain (or that can be exercised within the Spanish territory) and exceed €700,000 could be subject to Wealth Tax during year 2022, the applicable rates ranging between 0.2 per cent. and 3.5 per cent. However, as the income derived from the Notes is exempted from NRIT, any non-resident individuals holding the Notes as of 31 December 2022 will be exempted from Spanish Wealth Tax in respect of such holding.

Legal entities tax resident outside Spain are not subject to Spanish Wealth Tax.

4.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals not tax resident in Spain who acquire ownership or other rights over the Notes by inheritance, gift or legacy, and who are tax resident in a country with which Spain has entered into a double tax treaty in relation to Inheritance and Gift Tax will be subject to the relevant double tax treaty.

If the provisions of the foregoing paragraph do not apply, such individuals will be subject to Inheritance and Gift Tax in accordance with the applicable Spanish regional and State legislation.

Legal entities not tax resident in Spain which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to the Inheritance and Gift Tax. They will be subject to NRIT (as described above). If the entity is resident in a country with which Spain has entered into a double tax treaty, the provisions of such treaty will apply. In general, double tax treaties provide for the taxation of this type of income in the country of residence of the beneficiary.

5 Payments under the Guarantee

In the opinion of the Guarantor, any payments of principal and interest made by the Guarantor under the Guarantee may be characterised as an indemnity and, accordingly, be made free and clear of, and without withholding or deduction on account of any Spanish tax.

However, although no clear precedent, statement of law or regulation exists in relation thereto, even if the Spanish tax Authorities take the view that the Guarantor has effectively assumed all the obligations of the Issuer under the Notes subject to and in accordance with the Guarantee, and that accordingly they shall be classified as interest payments for Spanish tax purposes, they should determine that payments made by the Guarantor relating to interest on the Notes will be subject to the same tax rule previously set out for payments

made by the Issuer (i.e. payable free of withholding tax provided that the relevant information obligations outlined in “*Disclosure obligation in connection with payments on the Notes*” below are complied with).

6 Disclosure obligations in connection with payments on the Notes

The Issuer is currently required by Spanish law to gather certain information relating to the Notes. In accordance with Article 44 of Royal Decree 1065/2007, as amended by Royal Decree 1145/2011, certain information with respect to the Notes must be submitted to the Issuer at the time of each payment (or, alternatively, before the tenth calendar day of the month following the month in which the relevant payment is made).

Such information includes the following:

- (a) Identification of the Notes (as applicable) in respect of which the relevant payment is made;
- (b) the date on which the relevant payment is made;
- (c) total amount of income from the Notes;
- (d) total amount of income (either from interest payments or redemption) corresponding to each clearing house located outside Spain.

In particular, the Fiscal Agent must certify the information above about the Notes by means of a certificate the form of which is attached as Annex I to this Base Prospectus. In light of the above, the Issuer and the Fiscal Agent have arranged certain procedures to facilitate the collection of information concerning the Notes by the close of business on the Business Day immediately preceding each relevant Payment Date. If, despite these procedures, the relevant information is not received by the Issuer on each Payment Date, the Issuer will withhold tax at the then-applicable rate (currently 19 per cent.) on the total amount of interest payable in respect of the relevant Notes. The Issuer will not pay any additional amounts with respect to any such withholding.

If, before the tenth day of the month following the month in which interest is paid, the Fiscal Agent provides such information, the Issuer will reimburse the amounts withheld.

However, regarding the interpretation of Royal Decree 1145/2011, please refer to “*Risk Factors – Risks relating to withholding – Risks in relation to Spanish Taxation*”.

The Issuer, the Arranger and the Dealers do not accept any responsibility relating to the procedures established for the collection of information concerning the Notes and they will not be liable for any damage or loss suffered by any holder who would otherwise be entitled to an exemption from Spanish withholding tax but whose income payments are nonetheless paid net of Spanish withholding tax because these procedures prove ineffective. Moreover, the Issuer will not pay any additional amounts with respect to any such withholding. See “*Risk Factors*”. The procedures for providing documentation referred to in this section are set out in detail in the Fiscal Agency Agreement, which may be inspected upon reasonable notice, at the specified offices of the Issuer and the Fiscal Agent. Should any withholding tax be levied in Spain, holders of the Notes should note that they may apply directly to the Spanish tax authorities for any tax refund which may be available to them.

In the event that the currently applicable procedures were modified, amended or supplemented by, amongst others, a Spanish law, regulation, interpretation or ruling of the Spanish Tax Authorities, the Issuer will inform the Noteholders of such information procedures and of their implications, as the Issuer may be required to apply withholding tax on interest payments under the Notes if the Noteholders would not comply with such information procedures. In such case, the Issuer will not pay additional amounts with respect to the Notes as a

result of the imposition of such withholding tax, as provided in Condition 8 (*Taxation*).

Set out below is Annex I. Sections in English have been translated from the original Spanish. In the event of any discrepancy between the Spanish language version of the certificate contained in Annex I and the corresponding English translation, the Spanish tax authorities will only hold the Spanish language version of the relevant certificate as the valid one for all purposes.

U.S. Foreign Account Tax Compliance Act (FATCA)

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“**foreign passthru payments**”) to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions including Spain have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“IGAs”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign pass thru payments are published in the U.S. Federal Register. Federal Register generally would be grandfathered for the purpose of FATCA withholding unless materially modified after such date (including by reason of substitution of the issuer). However, if additional Notes (as described under “Terms and Conditions – Further Issues”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

United States of America

Regulation S Category 2; TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA is specified as not applicable in the relevant Final Terms.

The Notes and the Guarantee have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U. S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes are subject to U. S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U. S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes and the Guarantee, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Fiscal Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U. S. persons, and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes and the Guarantee within the United States or to, or for the account or benefit of, U. S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes and the Guarantee within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA Retail Investors

Unless the Final Terms in respect of any Notes specifies the “Prohibition of Sales to EEA Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available

and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Regulation; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the EEA, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State except that it may make an offer of such Notes to the public in that Member State:

- (i) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (ii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iii) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (i) to (iii) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129, as amended.

United Kingdom

Prohibition of sales to UK Retail Investors

Unless the Final Terms in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:

 - (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specifies “Prohibition of Sales to UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (i) at any time to any legal entity which is a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA;
- (ii) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iii) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (i) to (iii) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

For the purposes of this provision, the expression an offer of Notes to the public in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression UK Prospectus Regulation means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;

- (b) **Financial promotion:** it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer or the Guarantor; and
- (c) **General compliance:** it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Belgium

Other than in respect of Notes for which “Prohibition of Sales to Belgian Consumers” is specified as “Not Applicable” in the applicable Final Terms, each Dealer has represented and agreed that an offering of Notes may not be advertised to any individual in Belgium qualifying as a consumer within the meaning of Article I.1 of the Belgian Code of Economic Law, as amended from time to time (a “**Belgian Consumer**”) and that it has not offered, sold or resold, transferred or delivered, and will not offer, sell, resell, transfer or deliver, the Notes, and that it has not distributed, and will not distribute, any prospectus, memorandum, information circular, brochure or any similar documents in relation to the Notes, directly or indirectly, to any Belgian Consumer.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Act No. 25 of 1948, as amended) and, accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer or sell any Notes directly or indirectly, in Japan or to, or for the benefit of, any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person except under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant Japanese governmental and regulatory authorities and in effect at the relevant time. For the purposes of this paragraph, “**Japanese Person**” shall mean any person resident in Japan, including any corporation or other entity organised under the laws of Japan.
